Acknowledgement of Country

Deakin University acknowledges the Traditional Custodians of all the unceded lands, skies and waterways on which Deakin students, staff and communities come together. As we learn and teach through virtually and physically constructed places across time, we pay our deep respect to the Ancestors and Elders of Wadawurrung Country, Eastern Maar Country and Wurundjeri Country, where our physical campuses are located. We also acknowledge the many First Nations from where students join us and make vital contributions to our learning communities.

Artwork: *Learning Together, Growing Together* by Nathan Patterson.

Six campuses. Three countries.

Deakin truly is an international university

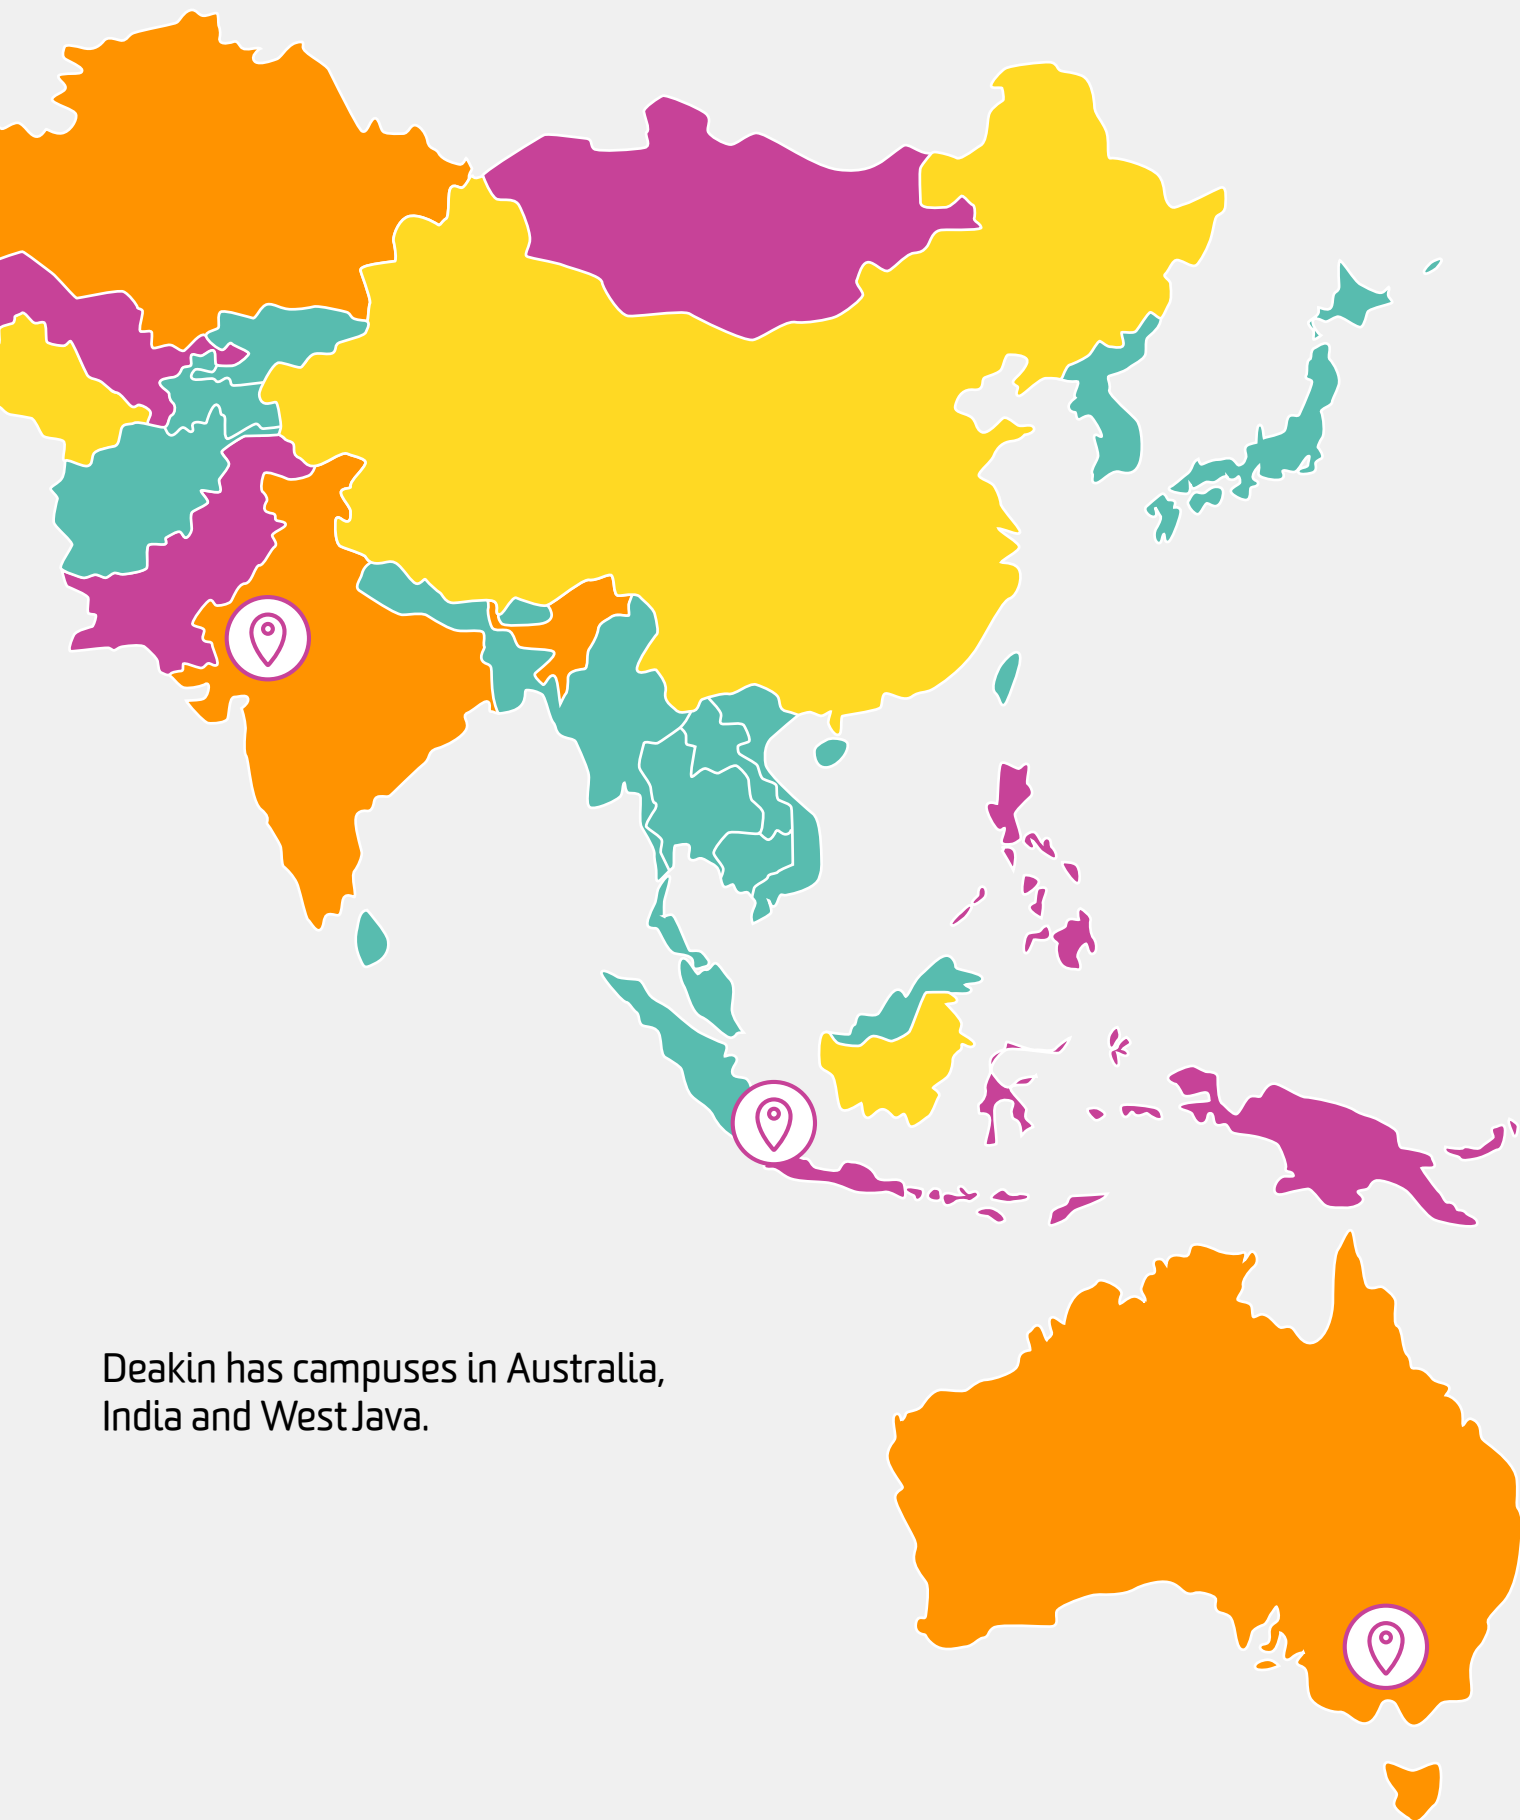

Based in the Australian state of Victoria, Deakin has been offering degrees from our four Australian campuses for 50 years. We have now expanded to India and Indonesia, bringing our high-quality Australian education to the world. As with our Australian campuses, Deakin's international campuses are communities where students can make connections that last a lifetime.

Deakin was the first international university to open a teaching campus in India. The GIFT City Campus offers postgraduate courses aligned with local employment needs.¹ As a global financial and information technology hub, GIFT City offers an opportunity for students to learn with industry partners. This practical, real-world experience, which Deakin is known for, prepares graduates for emerging and in-demand roles in India's growth sectors.

Our newest campus in Bandung, West Java, Indonesia is an innovative joint effort with Lancaster University (United Kingdom). The campus currently offers STEM programs in business and information technology in Bandung, to support future skills demand in Indonesia and around the globe. Students graduate with dual undergraduate qualifications from two world-class institutions while enjoying the many benefits of living in one of Indonesia's leading student cities.

1 You must be an Indian citizen to study at GIFT City.

Deakin has campuses in Australia,
India and West Java.

The Deakin experience

At Melbourne's #1 university for graduate employment¹ and course satisfaction², you will graduate with more than a degree.

When you study at Deakin, you unlock access to a dynamic education, hallmarked by:

- industry-immersed placements and work integrated learning experiences
- flexible course options, including an extensive range of double degrees
- study abroad and travel opportunities
- round-the-clock student support that is ranked #1 among all Melbourne universities³
- a world-class digital learning environment
- #1 ranked facilities and resources among all Melbourne universities.³

As a Deakin graduate, you will enter the workforce with the real-world skills you need to transition from course to career.

call Victoria home²

Discover the Australian state of Victoria

Deakin's four campuses are located in Victoria and are home to students from more than 130 countries. Victoria is an exciting and multicultural state on Australia's east coast.

Whether you study in Melbourne, Geelong or Warrnambool, the communities that surround Deakin are friendly and full of life.

Celebrated for the arts, sports, food and coffee, Victoria is also home to incredible beaches, nature and wildlife, and a welcoming and engaging culture.

¹ QS Best Student Cities Ranking 2025.

² Australian Government Department of Education, International student numbers by state, for 2024 in Victoria.

Your campus; our game-changing facilities

Join a global community of more than 300,000 alumni who have a shared ambition to nurture a better future. Where you choose to study will depend on your degree and preferences. Our on-campus degrees use the same online learning platform as our online degrees. That means seamless connection between our physical and digital classrooms.

► Melbourne Burwood Campus

A short tram ride or drive from Melbourne's bustling city centre, Deakin's Melbourne Burwood Campus is our liveliest; it is the home campus for approximately 27,000 students.

Our top-tier facilities:

- a professional motion-capture lab
- dance, drama, visual arts, photography and design studios
- Deakin Studios (Burwood) – our virtual production, television, film, and animation studio
- the Phoenix Art Gallery
- new, purpose-built engineering facilities featuring high-tech equipment
- industry-standard food preparation, food analysis and sensory labs
- a recently expanded nursing and midwifery clinical simulation centre
- IT gaming facilities
- a simulated foreign-currency trading floor
- a moot court
- a specialised state-of-the-art indoor exercise and sport science facility

► Geelong Wairn Ponds Campus

More than 7,300 students access world-class programs and superb facilities at our Wairn Ponds Campus, which is a short bus ride from the Geelong city centre. Deakin buses run regularly from the Geelong Waterfront Campus in the city centre to the Wairn Ponds Campus.

Our top-tier facilities:

- a state-of-the-art engineering precinct and modern science labs
- the Nyaal immersive learning precinct, an interactive learning space with a 360-degree theatre, collaborative think tank and event space

Additionally, Deakin's Elite Regional Sports Precinct includes:

- an Australian Football League oval
- a FIFA-grade soccer pitch
- an eight-lane, 400-metre athletics track and 50-metre long-jump track and sandpit
- basketball and netball courts and baseball diamond.

► Geelong Waterfront Campus

Founded in 1994 and originally built as wool stores in the 19th century, our Geelong Waterfront Campus overlooks Corio Bay and offers world-class facilities to more than 4,200 students.

Our top-tier facilities:

- Architecture and Built Environment (A+B) studio and gallery
- nursing and midwifery clinical simulation centre
- Occupational Therapy Learning Hub featuring assistive SMART technology
- design, photography and visual arts studio spaces
- The Project Space art gallery
- wellbeing spaces for group fitness and pilates and yoga

This stunning campus is just 30 minutes from the iconic Great Ocean Road, complete with famous surf beaches and the occasional whale sighting.

► Warrnambool Campus

Three hours from Melbourne and two hours from Geelong by car, our friendly and tight-knit Warrnambool Campus is set on the banks of the Hopkins River.

Our top-tier facilities:

- newly-opened multi-million-dollar Health Precinct with nursing and midwifery, occupational therapy and medical simulation spaces
- the Aquaculture Futures Facility
- Deakin's research vessel 'Yolla'
- the Hycel Technology Hub, a 2200m² bespoke hydrogen research, testing and training facility

► Common facilities across campuses

- DeakinACTIVE gyms
- medical centres
- cafes and hospitality outlets
- libraries
- security offices
- all-gender accessible amenities
- Changing Places facilities
- public transport access (expanded bus network at Burwood)
- car parks

Online learning

For more than 50 years¹, Deakin has been perfecting distance and online learning. Today, we have a community of more than 60,000 students, and continue to be world leaders with our innovative online teaching and learning platform.

Study what, how and when you want with our dedicated online learning platform, designed to support your full-time, on-campus experience. Our easy-to-use learning tools, including DeakinSync and CloudDeakin, connect you to peers, teachers, and support resources such as live-streamed seminars, real-time class discussions, and offline course materials.

¹ Deakin was formally established on 10 December, 1974.

Melbourne Burwood Campus

Our Melbourne Burwood Campus is the perfect mix of state-of-the-art student housing and traditional village living. It's just 30 minutes from the Melbourne central business district and there are various transport options on your doorstep. This campus is bordered by sprawling parkland and boasts studio apartments, shared living options and exclusive res spaces like a Zen Zone, Music Room and Sports Lounge.

Geelong Wairn Ponds Campus

Make Geelong Wairn Ponds Campus your future home and start your mornings with a walk, jog or ride through the picturesque campus. Choose from self-contained studio apartments, townhouses and shared units. Plus, get connected with students from across the globe at an array of events, including trivia nights and regional trips.

Geelong Waterfront Campus

The Geelong Waterfront Campus is located in the heart of Geelong's central business district. Deakin Residential Services' Brougham House offers the conveniences of city living, with state-of-the-art facilities and stunning views from the rooftop terrace overlooking the bay. You will also have access to study rooms, a theatre room and recreation spaces.

Warrnambool Campus

Live on the banks of the pristine Hopkins River and near surf beaches. Choose from shared living or studio apartments where you will immediately feel at home. Warrnambool offers a tight-knit, welcoming and inclusive community, with lots of opportunities to meet new people and learn new skills.

¹ Powered by the Asia-Pacific Student Accommodation Association (APSAA) in conjunction with Investor In Students (IIS), 2024.

'Living on Res has been one of the best decisions I have made all year. The real highlight is the exclusive Res events that require no additional payment from residents. I got to meet so many awesome people and experience things that I may not have had a chance to if I was not on Res.'

Derby, Brunei

Master of Cyber Security student

Off-campus accommodation

There are also plenty of options if you would like to live off campus.

Houseme is Deakin's database of local rooms, houses and apartments available to rent.

We are also here to help you apply for properties and understand your rights and responsibilities as a tenant in Australia.

To learn more about living off campus, visit accommodation.deakin.edu.au/off-campus.

Everyday expenses

Accommodation is not the only cost to consider.

The cost of living in Australia will vary depending on where you live, your lifestyle and your day-to-day expenses. It is a good idea to think about your budget before you arrive.

Cost-of-living guide

Visit costofliving.studyaustralia.gov.au to find out more.

We are here to help you

#1 university in Melbourne for student support¹

¹ 2023 Student Experience Survey, Quality Indicators for Learning and Teaching (QILT).

► Airport pick-up

We can pick you up from the airport when you land in Australia for the first time. This is a free service for all international students when they start their studies.

► Orientation

Not sure what university will be like? Find out all the answers to your questions at Orientation Week and enjoy a range of fun and informative activities.

► Career planning

We offer career support during your studies and after you graduate. With access to career coaching, online resources and hands-on workshops, you will have all the tools for career success.

► Study support

You will receive a world of study support at Deakin. With passionate teachers who care about your success, one-on-one study mentors, online resources and much more, you will have every opportunity to reach your potential.

► Wellbeing

There is nothing more important than your health and wellbeing — on and off campus. You can access doctors, mental health services, physiotherapy, disability support and much more.

► Safety and security

Feel safe at all times on campus, with around-the-clock security services ready to help whenever you need it.

► Clubs and events

We have more than 120 clubs and societies across our campuses and online to help you meet new people and try new things. Many of our events are designed specifically for international students.

Visit dusa.org.au/clubs to find out more.

► Spiritual support

Multifaith chaplains provide compassionate support to everyone, regardless of religious belief. Prayer rooms are available at our campuses and offer a quiet and peaceful environment for you to take time for personal reflection or practise your faith.

The support you need to succeed

Deakin is proud to offer international students a range of scholarship opportunities.

These scholarships are merit-based. They are offered in recognition of your high academic achievements or your potential to make a positive contribution to Deakin University and the wider Deakin community. There are scholarships for specific study areas and citizens of specific countries.

Scholarships are limited in number. Many are offered on a first come, first served basis. You can use our Find a Scholarship tool online to explore which of our scholarships you might be eligible for.

▶ Australia Awards Scholarships

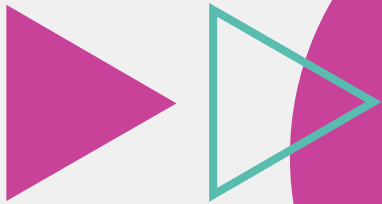

Australia Awards Scholarships are available to students in selected countries for full-time study in Australia.

It covers:

- a return airfare to Australia
- academic and other compulsory fees
- basic health insurance
- establishment allowance
- a living allowance.

This is not a Deakin scholarship.

Find out more at dfat.gov.au/people-to-people/australia-awards.

Want to know more about our scholarships?

Visit deakin.edu.au/international-students/fees-and-scholarships.

Deakin courses

At Deakin, we offer progressive, industry-immersed learning to help you reach your career goals.

Courses are listed by study area, along with the course name, course code, brief overview, majors and careers.

► Already know which study areas spark your interests?

Deakin has a range of career booklets to help you choose the right course.

Enhance your employability with a double degree

A double degree allows you to study two degrees at the same time. This option reduces the cost and duration of your study, without increasing your workload. Enjoy studying a diverse mix of core units and acquire skills that will put you in demand across a variety of industries.

You will graduate with two certificates – one for each of the degrees you've completed – which will broaden your career options and attract potential employers.

deakin.edu.au/study/find-a-course/double-degrees

Deakin terminology

Learn how to navigate our key terms and symbols.

Key terms

ATAR and lowest selection rank

The Australian Tertiary Admission Rank (ATAR) is a number between 00.00 and 99.95 that indicates your rank relative to all students in your age group (i.e. students aged 16 to 20 years), not your Year 12 group.

As per Australian Government guidelines, the ATAR published in this guide is the lowest 'adjusted selection rank' for which an offer was made in 2025 at the time of publication of this guide. The 'selection rank and its corresponding ATAR' is an applicant's ATAR, plus any adjustments applied.

Unit

A unit is normally one trimester long and most have a value of 1 or 2 credit points.

Credit point

For each unit you successfully complete, you will receive the credit point value of that unit towards your studies. You must complete a specified number of credit points to obtain your degree.

Course fees

The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change. All fees are listed in Australian dollars.

IELTS

IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required, as well as the lowest score allowed for any band (overall score/lowest band score). Deakin also accepts the results of other English language tests. See page 63 for details.

Work experience

Work experience is available to undertake as part of all our undergraduate degrees (required or optional). Work experience may involve placements, work-based training, community-based learning or collaborative research training arrangements.

Major

A group of six or eight related units in a particular study area or academic discipline.

Minor

A group of related units in an area of study or academic discipline. Minors are shorter than majors and are usually four units long.

1 QS World University Rankings by Subject 2025.

2 Deakin's bachelor level construction management degrees are professionally accredited by the Australian Institute of Quantity Surveyors (AIQS), the Royal Institution of Chartered Surveyors (RICS), the Australian Institute of Building (AIB), and the Chartered Institute of Building (CIOB).

3 Completion of this course can be fast-tracked by undertaking units in Trimester 3, effectively reducing the duration of study by up to one year.

4 This campus offering is new, so it won't have an ATAR until next year.

5 This course includes a range of work-related learning experiences, including the opportunity to apply for industry placements, internships or simulated workplace projects. Refer to the course structure and individual unit details for specific requirements.

6 Leads to professional recognition as an architect when followed by successful completion of an approved Master of Architecture program and an additional two years of work experience under the supervision of a registered architect in order to present for registration with the Architects Registration Board of Victoria.

7 Trimester 3 intake is only available online.

8 The construction management stream of this double degree is professionally accredited by industry. Graduates qualify for membership of: the Australian Institute of Quantity Surveyors (AIQS); Chartered Institute of Building (CIOB); and Royal Institution of Chartered Surveyors (RICS).

9 The duration of this program can be reduced based on your previous qualifications and professional experience. This means you could fast track the masters degree from 2 years down to 1.5 years duration.

Bachelor of Arts (Honours) A400

If you are looking for a pathway to research degrees and enhanced career opportunities, the Bachelor of Arts (Honours) could be right for you. In this optional year of specialised study, you will conduct in-depth research on a topic you are passionate about and develop advanced research skills and disciplinary knowledge.

Bachelor of Arts (Psychology) A301

Study the Bachelor of Arts (Psychology) and gain insight into why people think, feel and behave the way they do. You will also unlock a world of opportunity through your study in the arts. Acquire the mix of skills sought by employers by studying a degree with exposure to two distinct areas of interest. Combining your passions in psychology and the arts can open doors and make you more employable once you graduate.

Bachelor of Criminology A329

Discover why crime occurs, how it is perceived and how we can address it. Graduate with the skills to make a real difference in the criminal justice system. Explore the causes and impacts of individual and organised criminal activities, from environmental crime to illicit digital surveillance. Learn how to use this knowledge to develop effective responses to harmful behaviours.

CAREERS

You can pursue a career in a range of fields and work settings, such as:

- criminology, sociology and policy
- culture and creative arts
- education, government and NGO
- language and international relations
- media, writing and communication.

The only university in Australia to offer a three-year Bachelor of Education (Primary)¹

#2 in Australia and #11 in the world for education and educational research²

Join one of Australia's largest growing industries³

OVERVIEW

Bachelor of Early Childhood Education⁴ **E333**

If you are inspired to teach young children, Deakin's Bachelor of Early Childhood Education prepares you to become a kindergarten/preschool teacher. You will become a specialist in play-based learning and gain knowledge in early childhood education curriculum, theories and practice. You will learn to teach across a wide range of subjects from mathematics to science, creative arts to literacy. You will also become an expert in child development, health and wellbeing. Deakin's Professional Experience Program provides extensive opportunity to put what you have been learning into practice.

Accelerated and employment-based pathways are available for educators with a Diploma of Early Childhood Education and Care (or equivalent).

Bachelor of Education (Primary)^{4,6} **E359**

Build a solid foundation in primary curriculum and discover what it takes to teach and lead young people. Deakin's Bachelor of Education (Primary) equips you with the essential knowledge and skills required to guide children through their primary learning years. You will learn how to teach a wide range of subjects and specialisations, including mathematics, science, the arts and literacy. Through our Professional Experience Program, you will be able to put what you have been learning into practice.

Fast-track your career with our accelerated learning option. Achieve a four-year equivalent qualification in only three years of full-time study if you undertake selected units in Trimester 3.

Bachelor of Health and Physical Education^{4,6} **E377**

Develop the skills and knowledge required to become a qualified secondary health and physical education teacher. Discover how to create safe, inclusive and engaging learning environments that set students up for lifelong health and physical activity. Explore areas including applied sports science, biomechanics, and motor learning and development.

DOUBLE DEGREES

Bachelor of Arts/Master of Teaching (Secondary)^{4,6} **D303**

The Bachelor of Arts/Master of Teaching (Secondary) allows you to combine your passion for the arts with your desire to inspire the generations of tomorrow. Our school-based learning programs and professional learning placements ensure you are ready to teach today and into the future. Fast-track your studies and graduate with two versatile degrees in just four years.

MAJORS⁹ AND TEACHING METHODS

Alongside core education studies, you will complete two majors to support your learning towards your teaching methods in the Master of Teaching. Choose from:

- one of Anthropology, Indigenous Studies, International Relations, Middle East Studies, Philosophy, Politics and Policy Studies or Sociology
- one of English – Children's literature or English – Literature
- one of Arabic, Chinese, Indonesian or Spanish
- History
- Media studies
- Performing arts
- Visual arts and photography.

You will also choose four electives selected from another Arts major discipline listed above.¹⁰

CAREERS

You can pursue a career in a range of fields and work settings, such as:

- early childhood teaching
- educational leadership
- policy development
- consultancy organisations
- community-based agencies.

OVERVIEW

Bachelor of Science/Master of Teaching (Secondary)^{4,6} **D304**

Translate your passion for science into a career that inspires others. Create unique course combinations with science specialisations and graduate as a qualified secondary school educator. This industry-led double degree allows you to fast-track your studies and graduate with two degrees in just four years.

MAJORS⁹ AND TEACHING METHODS

Alongside core education studies, you will choose two science teaching areas that will lead to your postgraduate specialisations in the Master of Teaching:

- one of Animal biology, Cell biology and genomics, Human biology and Plant biology
- Chemistry
- Environmental science
- Food science
- Mathematical modelling.

CAREERS

Over 15% job growth for nutrition professionals¹

Benefit from world-class facilities modelled on commercial facilities

Gain extensive practical experience through placement opportunities

OVERVIEW

Bachelor of Nutrition Science H315

Study Deakin's Bachelor of Nutrition Science and help tackle the challenges facing our society. Learn about disease prevention, lifespan nutrition, obesity, the spread of misinformation and the social and physiological effects of food on our wellbeing. Deakin is ranked #1 in Australia for nutrition science research,² so you will be learning from leading experts and gaining insights from cutting-edge research. Modelled on commercial laboratories, our food preparation, food analysis and two sensory laboratories give you hands-on experiences that prepare you for the workplace.

You can pursue a career in a range of fields and work settings, such as:

- assessing and evaluating food intake
- consumer behaviour
- education and research
- food analysis, policy, or sustainability
- food manufacturing
- food quality and safety
- individual and population health
- nutrition for disease prevention
- nutrition throughout the lifespan
- product development
- sensory analysis.

OVERVIEW

DOUBLE DEGREES

Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science **D333**

Deakin's Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science double degree allows you to combine your passion for exercise and sport with your passion for food and nutrition. Offered by the #1 sport science school in the world⁸, your field-leading education at Deakin will allow you to improve the performance, health and participation of individuals and teams. The nutrition science component will teach you about the nature of food and the importance of nutrition for individual and population health.

You can pursue a career in a range of fields and work settings, such as:

- community health and wellness, rehabilitation, and sport science
- community nutrition
- consumer education and awareness
- corporate health, local and community sporting clubs
- fitness and aquatic centres
- food policy and regulation
- government agencies
- private health and recreation centres and clinics
- professional sporting bodies and clubs
- public health nutrition
- sport, exercise, coaching, and fitness.

RELATED POSTGRADUATE QUALIFICATION

Master of Dietetics **H718**

The Master of Dietetics prepares you to solve widespread health issues through science-based, diet-related treatments. Take a big step towards becoming an Accredited Practising Dietitian. Build the advanced skills that will allow you to improve the health and wellbeing of the individuals and communities you work with. If you're passionate about improving the wellbeing of the people around you through diet, the Master of Dietetics allows you to cut through misinformation and unlock solutions that are shaped by evidence.

Deakin's Master of Dietetics currently has full accreditation from Dietitians Australia. Students graduating from accredited courses are eligible to apply for full membership of Dietitians Australia and the Accredited Practising Dietitian (APD) program and to work in all areas of dietetics.

As an Accredited Practising Dietitian, you can pursue a career in a range of fields and work settings, such as:

- clinical (hospital) dietetics
- communications or media
- dietetic education and research
- food service
- health promotion
- marketing
- policy development
- public health
- public relations
- sports nutrition.

OVERVIEW

Bachelor of Social Work **H330**

Do you have a passion for human rights and a strong sense of social justice? Deakin's fully accredited Bachelor of Social Work will equip you with the knowledge and skills required to enhance wellbeing through an understanding of policy, socioeconomic factors and social equity issues. Job opportunities in this sector are expected to grow significantly over coming years, with the World Economic Forum declaring social work and counselling professionals as one of the top 15 largest growing roles.¹¹ Graduate career-ready with the skills to work effectively with individuals, families and communities affected by inequality.

When you graduate from an Australian Association of Social Workers (AASW) accredited degree, you can practice social work through a range of roles, such as:

- careers counsellor
- case manager
- child and family counsellor
- child protection officer
- community development and education officer
- disability support coordinator
- diversity officer
- family relationship adviser
- mental health coordinator
- school counsellor
- youth projects officer.

OVERVIEW

Bachelor of Vision Science/Master of Optometry **D302**

Graduate in just three and a half years with Australia’s only accelerated Bachelor of Vision Science/Master of Optometry course. Optometrists are in high demand, with occupation growth expected to reach 16.4% by 2029.¹⁵ You will gain the discipline-specific knowledge and skills you need to be eligible to apply for registration as a practising optometrist in Australia and New Zealand. This program has a strong emphasis on understanding the visual health issues impacting regional and rural Australia, as well as the health gap between members of these communities and those living in urban centres.

CAREERS

You can pursue a career in a range of fields and work settings, such as:

- low vision
- myopia control
- paediatric vision
- practice ownership
- private and public eye care
- recognised interest areas within optometry, such as dry eye management
- research and education.

DOUBLE DEGREES

Bachelor of Arts/Bachelor of Laws D312

Graduating with two versatile degrees sets you up for many possibilities in both legal and non-legal roles. Combine an industry-leading legal education with thought-provoking investigative learning when you study Deakin's Bachelor of Arts/Bachelor of Laws. Study everything from torts to commercial law at Deakin Law School, while exploring a complementary specialisation – such as criminology, sociology, politics and policy studies, and media studies – through your arts degree.

MAJORS⁴

See Bachelor of Arts, page 18.

You can pursue a career in a range of fields and work settings, such as:

- commercial law
- criminology or sociology
- criminal law
- culture and creative arts
- education
- family law
- government and NGO
- language and international relations
- media, writing, and communications
- personal injury law
- policy
- public international and human rights law
- refugee law.

Top 250 for clinical and health subjects¹

Unique focus on rural and regional medicine

Learn from leading professionals in healthcare

OVERVIEW

Doctor of Medicine H911

Apply to the Doctor of Medicine and set yourself up for a range of rewarding careers, from general practice to pathology, paediatrics to surgery. The course has a unique focus on rural and regional medicine, Indigenous health and patient-centred communication skills.

Not only do our students develop the foundational skills essential to a career in medicine, but they are also given the opportunity to explore multiple specialist areas. Our Doctor of Medicine has an emphasis on rural and regional medicine and aims to satisfy the critical shortage of doctors in regional areas, which makes graduates highly employable.

Start your journey with foundations of medicine, encompassing medical sciences, clinical capabilities, public health, medical ethics and law, and Indigenous health.

You will learn to solve the kinds of problems you will face in your future career in a supportive environment. You will also develop your confidence in foundational clinical skills, clinical reasoning and the high-level human capabilities necessary for excellent person-centred care.

In third and fourth year, you will be immersed in the clinical environment at clinical schools in Ballarat, Geelong, Melbourne, Warrnambool and/or the Rural Community Clinical School, where you will complete programs that span from general medicine and surgery to specialised programs. deakin.edu.au/med-clinical-schools

You will also spend time in third year following patients as they transition between hospital and community care, gaining a broader appreciation of the healthcare system and the patients' healthcare journeys.

Across third and fourth year, you will complete the Research Scholar Program, gaining foundational skills in analysing evidence and designing research programs that are important for future careers in medicine.

You will be provided extensive opportunities for feedback on your progress, with a program of assessment and self-evaluation that occurs in the clinical workplace.

There is also the opportunity to complete a rotation of your third-year studies in the Northern Territory, to gain a greater understanding of rural and remote medicine and Indigenous health.

The course concludes in year four with a pre-internship hospital rotation in which you will experience the day-to-day life of an intern.

CAREERS

Doctor of Medicine graduates are highly sought-after for internship positions in Australia and abroad. Deakin's MD program allows you to develop a deep understanding of the challenges and nuances of rural medicine, putting you in a strong position to address the shortfall of doctors in regional areas.

The Doctor of Medicine is accredited with the Australian Medical Council. Graduates are granted provisional registration as a Medical Practitioner in Australia and New Zealand, and are eligible to undertake paid work as an Intern to become eligible for full registration. To date, all Deakin international medical graduates have been eligible for internships in Australia, or their country of preference.

🕒 4 📅 S1²

CAMPUS

WP

ENTRY REQUIREMENTS

Admission to the Doctor of Medicine is determined by a combination of grade point average (GPA) in an approved undergraduate or postgraduate³ degree, Graduate Australian Medical School Admissions Test (GAMSAT) or Medical College Admission Test (MCAT) score, eligible adjustments and interview performance.

Applicants apply directly to the University and are selected for an interview on the basis of the following factors:

- a final GPA (weighted) of 5.0 or greater in an approved bachelor³, honours, graduate certificate, graduate diploma or masters by coursework.⁴ The GPA is calculated on the most recent three full-time-equivalent years (FTE) of study
- performance in the GAMSAT or MCAT⁵
- GAMSAT: a minimum score of 50 in each of the three sections of the Graduate Australian Medical Schools Admission Test (GAMSAT), and an overall score of 50 or greater
- MCAT: a score of 125 or greater in each of the four sections of the Medical College Admission Test (MCAT)
- applicable adjustments
- a minimum overall score of 50% at multi-mini interview (MMI).

Full entry requirement details can be found at deakin.edu.au/course/doctor-medicine-international.

‘My experience at Deakin has really gone beyond what I expected. The Bachelor of Nursing degree is so hands-on, and the practical sessions make the theory come to life. One of the best parts has been the support from the lecturers—they’re always open to questions and ready to help whenever I need it. This has really helped build my confidence and skills for my nursing career.’

Tharushi, Sri Lanka

Your pathway to becoming a registered nurse

Deakin's undergraduate nursing degrees are specifically designed to fulfil the registration standards of the Nursing and Midwifery Board of Australia (NMBA).

The diagram below highlights the study options available to achieve NMBA registration as a registered nurse.

OVERVIEW

Bachelor of Arts (Psychology) A301

Study the Bachelor of Arts (Psychology) and gain insight into why people think, feel and behave the way they do. You will also unlock a world of opportunity through your study in the arts. Acquire the mix of skills sought by employers by studying a degree with exposure to two distinct areas of interest. Combining your passions in psychology and the arts can open doors and make you more employable once you graduate.

MAJORS³

See Bachelor of Arts, page 18.

CAREERS

With both cross-disciplinary and specialist knowledge, you will have the ability to confidently enter a variety of fields. See A310 (page 18) for examples.

To take your career in psychology to the next level, you may opt to continue with further study, which can lead to registration as a psychologist. This will broaden your career opportunities, including specialist fields of psychology⁴, such as:

- clinical psychologist
- cognitive neuroscientist
- counsellor
- family therapist
- forensic psychologist
- health and community psychologist
- organisational psychologist
- rehabilitation counsellor
- sport and exercise psychologist
- youth psychologist.

Visit deakin.edu.au/international-students/choosing-your-degree/psychology for more details on our psychology courses.

Pathways to registration as a psychologist

To obtain registration as a provisional psychologist, you will need to complete four years of psychology studies recognised by the Psychology Board of Australia. To gain general registration with the Psychology Board of Australia, you must then complete a minimum of two years of further postgraduate study that includes a work placement.

The following diagram provides an overview of potential pathway options.

¹ Students must complete the 10-credit-point major in psychology.

² Bachelor of Health Sciences graduates must complete the 10-credit point major in psychology.

³ This fifth-year, APAC-accredited psychology course prepares you for a final year of supervised practice that leads to general registration as a psychologist.

OVERVIEW

Bachelor of Biomedical Science S323

Develop a comprehensive understanding of human biology through the Bachelor of Biomedical Science. Gain the expertise and practical skills to contribute to disease diagnosis and treatment across molecular, cellular and systems levels. You will become proficient in biological sciences and disease mechanisms, empowering you to enact meaningful change. Tailor your degree by choosing from a range of majors, allowing you to explore your interests and become a specialist in your chosen field.

OVERVIEW

Bachelor of Health and Physical Education^{9,10,11} **E377**

When you study a Bachelor of Health and Physical Education at Deakin, you will learn to create safe, inclusive and engaging learning environments that make a difference to students' health and wellbeing. As a qualified health and physical education secondary school teacher, you will specialise in a topic you are passionate about and develop the critical skills, specialised knowledge and practical classroom experience to nurture your students. Explore the art of movement, learn specialist teaching methods and delve into applied sports science, biomechanics, and motor learning and development. Join Australia's #2 university for education and educational research.¹²

Bachelor of Health Sciences **H300**

A rewarding career in health gives you the chance to help individuals and communities to lead fuller, healthier and happier lives. As a Bachelor of Health Sciences graduate, you can be confident you will have a solid grounding in a range of health-related fields. You will graduate prepared for a successful career in the largest and fastest growing employment sector in Australia. Employment in health care and social assistance is projected to grow by over half a million jobs in the next ten years.¹⁴

MAJORS⁴

This course offers related majors in exercise science and physical activity and health. See Bachelor of Health Sciences, page 39.

Bachelor of Sport Development **M320**

Think beyond the field with Deakin's Bachelor of Sport Development. Learn how to drive positive change through sport with our world-class facilities, academics and industry connections. Choose eight electives and design a degree that matches your focus. This ever-expanding field now sees graduates working across strategy, governance, policy and risk management.

DOUBLE DEGREES

Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management) **D394**

Join the #1 sport science school in the world¹ and learn from expert teachers in world-class facilities. This course offers an accredited pathway for you to be eligible to register and practise as an Accredited Exercise Scientist with Exercise and Sports Science Australia (ESSA). You will become a professional leader in exercise and sport science, equipped with the relevant business knowledge to manage sporting organisations and events.

Bachelor of Exercise and Sport Science/Bachelor of Engineering (Honours) **D467**

This unique double degree offers the opportunity to combine expertise in exercise and sports performance with essential engineering principles. Gain hands-on experience in designing and developing products and solutions for challenges in rehabilitation, biomedical technologies and sports engineering. If you are passionate about sport and exercise and ready to push your boundaries, this course will empower you to innovate at the intersection of sport, biomechanics, technology and design.

Entry requirements

► Academic admission requirements — Undergraduate

Each undergraduate degree at Deakin has its own minimum academic admission requirements, such as your high school results. The specific entry requirements for your country and your Deakin degree are listed at deakin.edu.au/int-entry. Be sure to check this information carefully and speak with Deakin or your agent if you have any questions.

Pathways

If you do not meet the academic admission requirements for a Deakin degree, there may still be a pathway available for you to study at our university. See pages 76–77 of this guide to learn more about alternative pathways to Deakin.

Supporting information

Some degrees at Deakin may require additional documentation prior to admission, such as a portfolio of work, a current police check from your country, your resume or a personal statement.

A personal statement gives you the chance to show us who you are. This can include your qualifications and background, and why you want to attend Deakin.

► Visas

International students who want to study in Australia require a visa. This could be a student visa. It is important that you know the type of visa you are granted so that you can meet the requirements of that visa.

You can learn more about student visas and other important visa information at the Australian Government's Department of Home Affairs website.

Find out more

Visit deakin.edu.au/international-students/entry-requirements/visas to learn more about student visas.

Find out more

Visit deakin.edu.au/international-students/entry-requirements for more details on specific entry requirements for your country and your Deakin degree.

English language requirements

To enrol in a Deakin degree, you will need to be able to read, speak, write and listen in English at a certain level. Students must provide evidence of at least one of the following:

- Obtaining the required scores on a recognised English language test, such as IELTS or TOEFL.
- Completed university (tertiary) or high school (secondary) studies taught in English.
- Lived and worked in an English-speaking country for at least five years.

Find out more

Visit deakin.edu.au/international-students/entry-requirements/english for more details about English language requirements.

English language tests accepted by Deakin

International English Language Testing System (IELTS)

IELTS is the most popular English language test in the world and is available in nearly every country.

Visit ielts.org to find out more about IELTS.

Other accepted English language tests

- C1 Advanced (formerly Cambridge English Advanced CAE)
- C2 Proficiency (formerly Cambridge English: Proficiency CPE)
- English language test for healthcare professionals (OET)
- Pearson Test of English Academic (PTE Academic).

English language in this guide

This guide uses IELTS exam scores as the standard for English language requirements. If you have taken a test other than IELTS, you can find equivalent requirements in the table below.

ENGLISH LANGUAGE TESTING			
	IELTS 6.0 (Overall) CEFR INDEPENDENT USER B2	IELTS 6.5 (Overall) CEFR PROFICIENT USER C1	IELTS 7.0 (Overall) CEFR PROFICIENT USER C1

Deakin University undergraduate academic admission requirements

In order to gain entry to Deakin, you will need to meet degree-specific entry requirements.

▶ Canada entry requirements

Applicants must achieve a minimum of five Grade 12 credits. All applications are assessed individually based on specific provincial and territorial level and credit requirements.

▶ New Zealand NCEA requirements

Applicants must have a New Zealand University Entrance certification and a minimum of 80 credits, including at least 60 credits at Level 3 or higher on the NZ qualifications framework, and an achievement of the University Entrance (UE). For more information visit: nzqa.govt.nz/qualifications-standards/awards/university-entrance.

Using the academic admission requirements table

The following table details the academic admission requirements for entry into Deakin undergraduate degrees. Review the table for the qualification most relevant to your secondary school studies.

Some qualifications will require you to make a quick calculation to convert your results into scores that Deakin will use to assess your application. Use the footnotes below the table to learn how to calculate your total score.

If your country is not mentioned

If your academic results or country of origin are not mentioned on these pages, it does not mean that you are unable to apply to Deakin. Our Admissions Team can assess your academic scores and other achievements upon submission of your application.

If you do not meet the requirements

If you are not sure whether you meet the academic admission requirements for a Deakin degree, there may still be a pathway available for you to study at Deakin. Visit deakin.edu.au/study/entry-pathways/deakin-college to learn about the alternative pathway options to Deakin.

Legend

X123	Course code. Every Deakin degree has a corresponding course code for easy reference and identification.
GE	Graduate entry
No offer	No offers made to recent secondary education applicants
RC	Admission is based on a range of criteria
NP	Not published – less than five offers made to recent secondary education applicants
N/A	Not applicable
B	Melbourne Burwood Campus
WP	Geelong Waurin Ponds Campus
WF	Geelong Waterfront Campus
WB	Warrnambool Campus
O	Online

‘I was drawn to studying at Deakin because of its strong reputation and excellent job outcomes for graduates. Australia offers a high-quality education system, a diverse community, and opportunities for personal and professional growth.’

Elmen, Indonesia
Bachelor of Commerce (Finance)

1

The ATAR score presented here is the 2025 score and should only be used as a reference for 2026. Please note, clearly-in ATAR scores can change from year to year. Missing ATAR scores indicate new courses commencing in 2026.

2

Students must complete at least five subjects (four core and one elective).

3

To calculate eligibility, total up results of best three A-level subjects, where A=5, B=4, C=3, D=2, E=1. You must complete a minimum of three A Levels.

4

To calculate eligibility, total up results of best three A-level subjects, where A=5, B=4, C=3, S=2. You must complete a minimum of three A Levels.

5

The score presented here is the minimum total score from best of five subjects. Total of the best five subjects (Category A and C only – Category B not to be used in calculation) as awarded on the official final academic transcript issued by Hong Kong Examinations and Assessment Authority (HKEAA).

6

Where mathematics is a prerequisite, Deakin requires a minimum score of 8.5 in Mathematics for students graduating from Vietnamese Year 12.

7

High school mathematics is an entry requirement of this course.

8

The requirement of the Australian Government is that all teaching graduates must pass the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) in order to teach. Students must pass the test to graduate from the course. Visit education.gov.au/teaching-and-school-leadership/literacy-and-numeracy-test-initial-teacher-education for more information.

9

Students enrolling in this course will need to pass Casper, an online test used to assess the personal attributes of applicants to initial teacher education courses. For more information visit deakin.edu.au/ug-casper.

10

This campus offering is new, so it won't have an ATAR until next year.

11

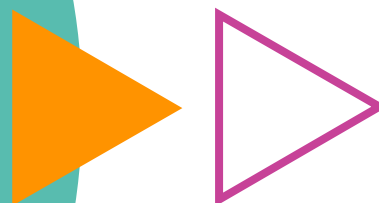

Students who apply for this degree will be ranked on academic merit and qualifications, this means those who meet entry requirements will not be guaranteed a place.

Find your path

Don't worry if you do not meet some of the academic or English language requirements for entry into a Deakin degree straight away.

We can still help you find a pathway to study with us.

Meeting the English language requirements at Deakin

The Deakin University English Language Institute (DUELI) offers a wide variety of programs that will help develop your English reading, writing, listening and speaking skills. DUELI pathways offer the opportunity to develop your English while improving your study skills. Located on the Deakin Burwood campus, students have access to first-class facilities and student support.

Successful completion of DUELI's English for Academic Purposes (EAP) pathway programs provide you with direct English entry into Deakin University and Deakin College.

You can progress through the programs you need for your next level of study, whether it be a diploma at Deakin College or a postgraduate degree.

DUELI programs include:

- English for Academic Purposes (EAP)
- General English
- English for Teaching
- IELTS Preparation
- Introductory Academic Program (IAP).

DUELI programs start every five weeks and are offered online and at the Melbourne Burwood Campus.

Find out more

Visit deakin.edu.au/international-students/entry-requirements/english to learn more about DUELI.

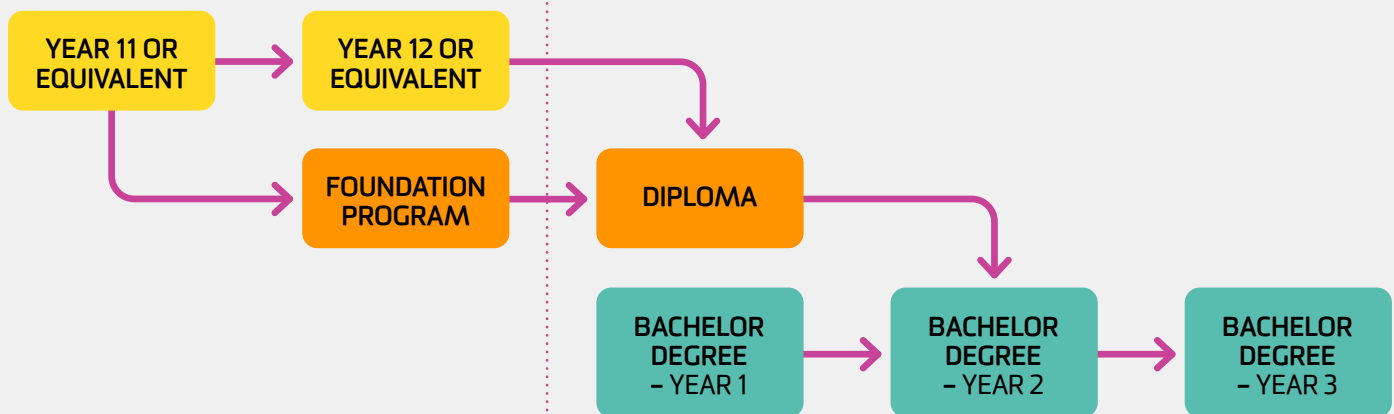

Your pathway to Deakin University

Sometimes a little extra support is needed to help you get started in your dream Deakin University degree. If your high school studies do not meet the admission requirements for Deakin University, or if you feel that you are not quite ready to start university, Deakin College offers programs that can help you transition into university with ease.

You can enrol into Deakin College for either a foundation or diploma program. Foundation programs prepare you for entry into an undergraduate program at Deakin University to transition into a diploma program. Graduates of the College's programs are eligible to apply for entry into the second year of a bachelor degree. With small class sizes and a highly supportive environment, Deakin College provides the support and confidence needed to succeed at university.

How to apply

Apply in five steps

STEP 1

FIND YOUR DEGREE

Choose the Deakin degree you would like to study. You can speak directly with us or with a Deakin authorised agent at any stage of the application process. Both are very knowledgeable and always happy to help.

STEP 2

UNDERSTAND THE ACADEMIC ENTRY REQUIREMENTS

Read all the academic entry requirements for your degree before you submit your application. Entry requirements may differ for some study areas or be dependent on your country of residence. Minimum requirements for our undergraduate degrees can be found on page 64 of this guide. Any special requirements will be listed on the specific course page of the Deakin website.

If you do not meet the academic entry requirements

There are a range of pathway options that may allow you to study at Deakin. Learn more about the pathway options on pages 76–77 of this guide.

Find out more deakin.edu.au/int-entry

You can apply to Deakin at any time throughout the year

Our team is always ready to answer any questions and process your application quickly.

Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway. Be prepared and give yourself time to gather the required paperwork.

STEP 3

UNDERSTAND THE ENGLISH LANGUAGE ENTRY REQUIREMENTS

All applicants need to meet Deakin's English language requirements to the level necessary for their chosen degree. IELTS scores are included on the course information pages of this guide. To learn more about IELTS and other English language tests, see page 63.

If you do not meet the English language requirements, there is a range of pathway options that may allow you to study at Deakin. Learn more about the pathway options on pages 76–77 of this guide.

Find out more deakin.edu.au/english-reqs.

STEP 4

GATHER SUPPORTING DOCUMENTS

When you submit your application to Deakin, make sure you attach all required supporting documentation. Otherwise, your application could be delayed or, even worse, rejected. Give yourself plenty of time to get organised. All documents must be translated into English. Most documents, such as transcripts and identification, need to be certified before they are submitted to Deakin.

Find out more: deakin.edu.au/international-students/how-to-apply

STEP 5

SUBMIT YOUR APPLICATION

You can submit your application to study at Deakin by:

- speaking with a friendly Deakin authorised agent, who understands what is required for a good application, as well as navigating the complexities that can come with visa applications, or;
- applying directly to Deakin through Deakin's StudyLink Connect platform.¹

¹ Please note that some students, depending on their country of citizenship, are required to submit an application through a Deakin authorised agent. Visit our website to view the list of countries this applies to.

Applying for credit

If you have completed relevant previous study, you may be eligible to apply for credit towards your Deakin degree.

Find out more: deakin.edu.au/rpl

'Deakin's emphasis on practical, industry-based learning was a major factor in my decision. The university offers the flexibility to balance my studies with other commitments, while also providing various work opportunities and networking opportunities to help me apply what I learn in real-world settings.'

Glossary

Bachelor degree

Usually three or more years of full-time study or equivalent part time. In some courses, you may choose one or more majors in specialised areas. It is the minimum tertiary requirement for many professional careers.

Credit point

For each subject you successfully complete, you will receive the credit point value of that subject towards your studies. You must complete a specified number of credit points to obtain your degree. The number of credit points required varies for each course and is outlined online. deakin.edu.au/international-students/choosing-your-degree

DeakinSync

DeakinSync is your personalised digital study hub, where you access your unit sites, email, calendar, enrolment details, study tools and more.

Defer

The approved postponement of study for a specified period prior to enrolment in a course. Most Deakin courses allow you to defer your studies for up to two years. deakin.edu.au/international-students/how-to-apply/accepting-your-offer

Double degree

A double degree, sometimes referred to as a combined degree, allows you to study two degrees at the same time e.g. Bachelor of Arts/ Bachelor of Laws. This means you graduate with two degrees in less time than it would take to complete them separately.

Entry requirements

These are requirements that you must meet, in addition to minimum tertiary entrance requirements, to qualify for entry to a course.

Equity and Inclusion Division

The Equity and inclusion Division is always working towards creating an environment of inclusion where we value and celebrate diversity, embrace difference and nurture a connected, safe and respectful community. We want everyone to feel a sense of belonging at Deakin.

Graduate entry

A course that requires prior completion of an undergraduate degree for entry. Deakin's Doctor of Medicine is a graduate-entry course.

Honours

Honours is an additional year of specialised study, usually taken after you complete a bachelor degree, or embedded as part of a bachelor degree. Honours may provide you with a competitive edge in the job market or a pathway into a higher degree by research.

Level

The year level at which units in your course are studied. Level 1 is equivalent to your first year of full-time study, level 2 is equivalent to your second year of full-time study, and so on. You can usually tell what level a unit is by looking at the first number in a unit's code.

Major

An approved group of at least six (and up to 10) credit points of related units, normally taken in sequence at each level of a course.

Minor

A minor is a group of related units in an area of study or academic discipline. Minors are shorter than majors and are usually four units long.

Pathway

Pathways provide alternative entry options for getting into a course at Deakin if you do not meet the requirements for entry. Pathways to Deakin courses can include options such as Deakin College. deakin.edu.au/international-students/entry-requirements/pathways

Personal statement

The personal statement is used in the admission process by university applicants to highlight any relevant factors or circumstances that cannot be included in the application itself. For example, motivation to study, work experience, community experience, academic performance or languages other than English.

The personal statement can be accessed online once you have registered with VTAC. You can only submit one statement, so you should address all your course preferences and provide details to support your application, such as relevant work experience and your reasons for applying. It is also important that you submit the form by the specified closing date at vtac.edu.au. If a personal statement is required or will be considered, it will be listed in the VTAC course detail online. deakin.edu.au/preparing-your-application

Postgraduate degree

A course of study beyond bachelor level, including graduate certificate, graduate diploma, masters and research degree. In many cases, eligibility for entry to a postgraduate course requires you to have completed an undergraduate degree and/or have significant work experience.

Recognition of prior learning (RPL)

RPL is an assessment process used to evaluate a person's prior learning and experience to determine whether credit can be granted in a course to shorten the length of the degree. There are two aspects to recognition of prior learning:

- credit may be transferred to your Deakin program from completed or partly completed studies you have undertaken at other accredited institutions; and
- credit may be granted on the basis of knowledge and skills acquired through informal learning, e.g. in the workplace.

deakin.edu.au/rpl

Glossary

Scholarships

A scholarship offers support to help a student with their education. Deakin offers a range of scholarships for commencing students that recognise and reward many accomplishments, from leadership skills to academic success, extra-curricular achievements and commitment to study while experiencing personal hardship.

deakin.edu.au/study/fees-and-scholarships/scholarships/find-a-scholarship

Semester

The teaching period for the Bachelor of Medicine and Bachelor of Medical Imaging.

Seminar

A class where a small group of students discusses study materials and ideas with a member of the teaching team.

Trimester

The teaching period of most courses at Deakin: Trimester 1 runs from March to June, Trimester 2 from July to October and Trimester 3 spans November to February.

Undergraduate degree

Usually the first degree you obtain in a given discipline area. For example, a Bachelor of Health Sciences. An undergraduate student is usually someone studying for their first degree in a given discipline.

Unit

A Deakin subject or unit is normally one trimester long and most have a value of 1 or 2 credit points.

Weighted Average Mark (WAM)

WAM is a calculation of all your relevant unit outcomes within a course. The WAM is weighted by taking into consideration the credit points of a unit and the result. Not all grades are used in the calculation of the WAM.
