Welcome

from the General Manager

At TAFE Queensland, your student experience is our priority.

We're dedicated to creating an exceptional learning environment where you can grow personally and professionally. Our goal is simple—to make your time with us both educational and memorable. We want you to feel confident, supported, and inspired as you work towards your career aspirations.

From the moment you join us, you'll be supported by a team of passionate educators and staff committed to helping you feel welcomed, motivated, and ready to achieve your goals. Our teachers bring real-world experience to the classroom. They remain actively engaged in their industries, ensuring the knowledge and skills you learn will help to prepare you for your career.

Across our campuses, you'll find hands-on, industry-relevant training delivered in state-of-the-art facilities—from simulated nursing wards and commercial kitchens to creative studios and engineering labs. This is where you gain the practical skills and experience that employers value, preparing you to thrive in a global workforce.

Our results speak for themselves: more than 84% of our graduates move into employment or further study within 6 months of graduating and our student and employer satisfaction rates remain consistently around 90%.

Whether you're launching your career, upskilling, or exploring new opportunities, together we can make great happen.

A stylized, handwritten signature in white ink that reads "Russell McKay". The signature is fluid and cursive, with the first letters of the first and last names being larger and more prominent.

Who we are

TAFE Queensland is committed to providing training excellence and industry relevant skills and knowledge to ensure graduates are capable, confident and have the hands-on skills employers need.

Our vision

At TAFE Queensland our vision is to be the leading provider of vocational training and targeted higher education courses.

Our purpose

Our purpose is to deliver contemporary, globally relevant skills, needed now and into the future, along with the opportunity for everyone, everywhere to transform their lives.

Our values

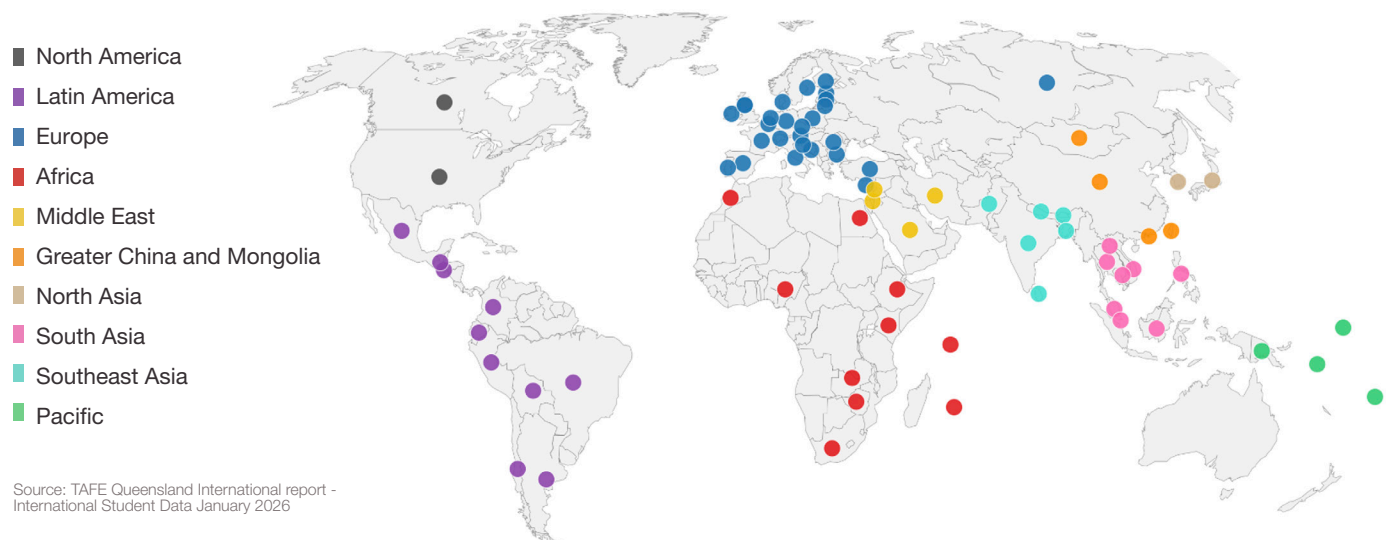

By holding true to our values and keeping customers at the centre of everything we do, we will continue to strengthen TAFE Queensland's reputation as a leading provider of high quality education and training.

Making great happen

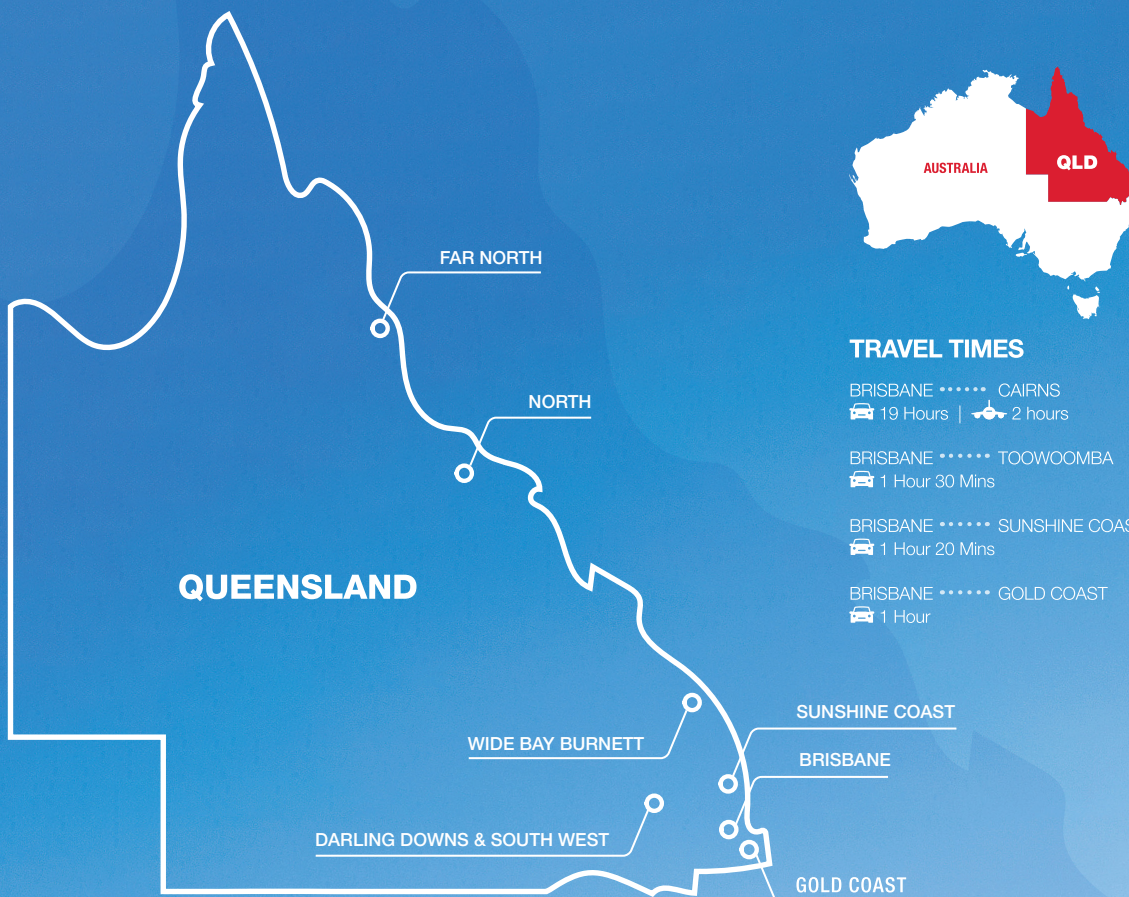

- We have an [89% student satisfaction rating](#)*
- We have a [93% employer satisfaction rating](#)*
- We are in partnership with some of Australia's top universities and institutes of higher education
- We are industry and employer focussed
- We provide exceptional student experiences

TAFE Queensland student diversity

Our locations

Queensland in Australia, is a stunning place to live and offers plenty of experiences and places to explore, with vibrant cultural communities. From the bustling city, to the outback, national parks, amazing reef and beaches, with a mostly sunny climate all year round.

VIRTUAL CAMPUS TOURS

Take a virtual tour of our campuses online, check out some study location highlights and the state-of-the-art facilities we have across the state.

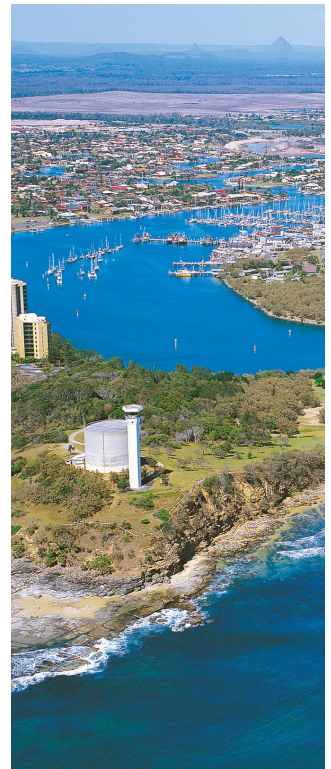

Regional and metropolitan locations

No other provider can match TAFE Queensland for scale and [location options](#). With 25 study locations available to international students, starting from the north of Cairns all the way down to the south to Gold Coast and out west to Toowoomba.

Our facilities

TAFE Queensland offers a range of purpose built facilities so you can get a feel straight away, what it is like to work in the industry.

From state-of-the-art clinical labs, hairdressing and beauty salons, fully functional kitchens, gyms, trade areas and creative spaces, you will be putting all your theory in to practice throughout your course.

With our passionate and knowledgeable teachers and hands-on practical training, you will be gaining the skills and confidence you need to graduate job ready.

World-class facilities

Keeping up to date with trends and changes to training, our campuses are relevant and modern. For example, our award winning campus at [Robina, Gold Coast](#) ensures that sustainability is integrated into every facet of campus operations, including campus design, course curriculum, and student life.

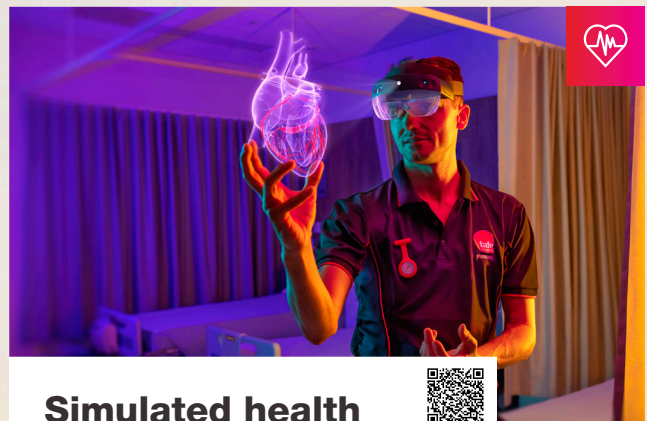

Industry standard equipment

Our production facilities boast industry-standard video editing suites, sound recording studios and a Black Box Theatre for video production. Our OptiTrack 3D Motion Capture System and high-definition video cameras mean you will be working with the most up-to-date technology.

Hospitality hubs

Our hospitality hubs combine commercial kitchens, and open to the public restaurants and cafes to give our hospitality students the ability to practice in a live service environment. Our purpose-built facilities will allow you to build hands-on skills that you can take straight into the workforce.

Simulated health environments

Our simulated [nursing wards](#) are purpose-built to replicate a real-life hospital environment. Equipped with the latest technology with some campuses providing simulation training rooms, augmented reality equipment, hologram patients, high-fidelity or responsive simulator manikins while under the supervision of our industry professional teaching staff.

Our modern and state-of-the-art facilities will give you the edge to gain [practical hands-on experience](#), so you can be ready to take your skills into industry.

Experienced teachers

Our teachers are the best at what they do. They deliver educational excellence by encouraging and mentoring their students to help you succeed in your chosen industry.

Our teachers also regularly return to industry to keep their skills and knowledge up-to-date. With this knowledge, our teachers help develop training packages (which are our qualifications) in consultation with industry to ensure our courses continue to meet contemporary workforce requirements.

Our partnerships with local employers provide you with the opportunity to learn and gain experience during your studies, from leading hospitals to automotive companies, sporting organisations and more.

Dental Accreditation

Our Bachelor of Dental Prosthetics course is nationally recognised and endorsed as an accredited course by the Australian Dental Council (ADC) and approved by the Dental Board of Australia. While at TAFE Queensland, all students are registered with the Australian Health Practitioner Regulation Agency (AHPRA) by TAFE Queensland.

Award-winning Programs

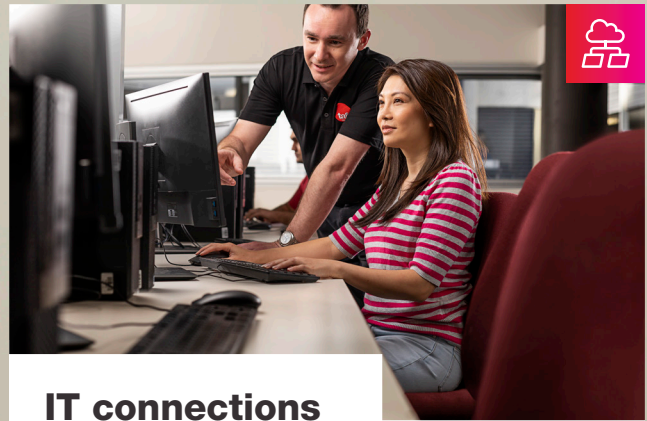

We are proud to be recognized as one of Australia's leading vocational education and training providers, receiving the Large Training Provider of the Year award at the Australian Training Awards for four consecutive years (2020–2024).

Engineering Accreditation

TAFE Queensland's Associate Degree in Civil Engineering is accredited by Engineers Australia at the level of Engineering Associate.

This professionally-accredited course is also recognised in Canada, Ireland, Korea, New Zealand, South Africa, United Kingdom and the United States of America through the Dublin Accord.

IT connections

Cisco Networking Academy is a global Information Technology (IT) and cybersecurity education program that partners with learning institutions around the world. This industry connection empowers students with career opportunities to further enhance and develop their careers. It is Cisco's largest and longest-running Cisco Corporate Social Responsibility program.

*This program is only aligned to the Advanced Networking/ Cloud Engineering specialisation

Vocational Placement

Vocational Placement is a mandatory unit included in some courses at TAFE Queensland. Students are required to undertake a set amount of supervised hours with a local business, relevant to their qualification.

The total amount of hours is determined by the qualification and can be found outlined in the [course information page](#), listed under the important information section.

Students must successfully complete their vocational placement to be eligible to graduate from their qualification. Students may also hear other staff or students refer to vocational placement as the acronym VPC.

Vocational placement provides a great opportunity where students can utilise their skills and knowledge gained from their studies at TAFE Queensland in a real life working environment, under the supervision of industry experts.

Kitchen Management & Hospitality

Each year, we train around **139,000 domestic and international students**. More than 84% of our graduates go on to work or further study*.

We have an **employer satisfaction** rate of

93.1%*

89%

was our **student satisfaction** rate in 2024-25, and we're working very hard on the other 11%*

Jiyeong Maeng
Cookery and Hospitality

I chose to study with TAFE Queensland as it is highly reputable. My teachers focus more on hands-on training. They teach me with all the kitchen equipment and serving techniques which helped me a lot with my work placement.

Degree Pathways

If you are interested in studying a degree after your diploma studies, TAFE Queensland has partnerships with some of Australia's top universities and institutes of higher education so you can graduate job-ready, before starting your degree.

Our hands-on practical qualifications give you a head start so you can find work in your chosen field sooner, while you are studying your degree.

Completing a diploma at TAFE Queensland may give you credit into your first year of study. These credits are pre-negotiated for you by TAFE Queensland. Specific entry requirements may apply in some circumstances, we suggest contacting the relevant institution for more information on credits available.

[TAFE QUEENSLAND HIGHER EDUCATION DEGREES AVAILABLE FOR INTERNATIONAL STUDENTS](#)

Price list and payment structure

International Price List

You can access the full list of course information including: costs, location, intakes and study period, offered to international students on our website below.

TAFE Queensland courses are paid by semester:

- 1 year course = 2 semesters / 2 payments
- 1.5 year course = 3 semesters / 3 payments
- 2 year course = 4 semesters / 4 payments

Here is an example to show the breakdown of how fees are paid per semester.

For example, the Certificate III in Hairdressing (SHB30416 | 095203C) is 1.5 years in duration.

1.5 years has a total of 3 semesters (which is 3 payments).

Payment structure:

- Semester 1 \$6,100 (this cost does not include any OSHC)
- Semester 2 \$6,100
- Semester 3 \$6,100

Our Price List is regularly updated

The deposit amount may change from time to time but will appear on your Letter of Offer with a breakdown of course fees and payment dates.

Your experience

Studying overseas is a big decision to make, being away from family and friends in a different country may be challenging at times. Whether you have been to Australia or Queensland before, it might take a bit of time to adjust to the culture, climate and your new lifestyle.

To make your transition a bit easier, TAFE Queensland has a range of student support services available and events on campus to help you settle into your new life in Queensland, meet new friends and have some fun.

You could also research the area you are interested in online, to see what events or local clubs they have close by that you might be interested in, which would also add to your personal experience.

[FIND OUT MORE
ABOUT LIFE IN
AUSTRALIA](#)

International orientation

The international team provide an orientation just for you, our international students. It is the perfect opportunity to meet all the international students who are studying on campus, or campuses close by. You never know, you might meet some of your future friends. You will also learn some important information you will need to know and meet key people who are available to help you, while you are studying.

On campus events

Each campus has their own student events that they offer during the year. These events might include a welcome barbeque (or BBQ for short – that’s part of the Aussie slang that you will pick up during your studies), small workshops, excursions, cookery student events, travel and tourism events or events based on special occasions or special dates through the year.

Listen to our Podcast

Find a comfy place to relax, or pop on some headphones while you go for a walk and find out about our past and present student experiences. Not only will you hear

from students, but there is also some of our teachers sharing stories and industry partners providing tips to working in their current industry, there are plenty of podcasts to choose from to help you find out what your experience at TAFE Queensland, could be like.

Graduation

Cue the glitter cannons! After successfully completing your qualification/s and after all your hard work and dedication to your studies, you have the opportunity to attend our graduation events. These special events, are a time to celebrate your achievements with your teachers and friends. Depending where you study, some campuses offer graduations at the end of the year or earlier the following year after you have finished.

The cost of graduation varies depending on your study location and sometimes qualification level. Your ticket includes the cost of gowning and may also include entertainment such as live music, photo booths, and catering before or after your ceremony.

Student support services

Everyone's journey is different and sometimes you need some extra support. We're here to help. Free and confidential support services are available to all students. tafeqld.edu.au/student-support-services.

Learning support

The Learning Skills team is ready to assist you with:

- Basic Key Skills Builder (bksb) skills review
- your digital, reading, writing and mathematic skills
- succeeding in your course, whichever way you are studying
- time management and preparing for exams
- help with assignments, referencing and essay writing
- Studiosity: 24/7 on-demand, online study help for academic literacy skills and core subject support.

AccessAbility support

If you identify with having a disability, our staff can work with you to develop a support plan. This may include:

- communicating with your teacher on your behalf, if required
- coordinating alternative assessment arrangements.

Counselling support

Short-term counselling is available for all students. Support services include:

- deciding what career path to follow
- choosing the right course
- general difficulties with student life
- personal and complex issues
- cross-cultural and special needs
- service referrals for long-term support.

Basic Key Skills Builder (bksb)

The bksb is an approved online skills review tool used by TAFE Queensland to determine your English and maths levels within the Australian Core Skills Framework (ACSF). We want to make sure you have the right skills and support to be successful in your course. The bksb helps us identify any areas where you may need additional support to help you achieve your goals. We recommend all new students undertake a bksb assessment before starting any training, for some courses this may be an entry requirement.

International student support

The International Student Support Office can assist students to settle into life and study in Australia at TAFE Queensland by:

- supplying information about living in Queensland advising on accommodation options, banking and transport options
- putting students in touch with community support and multicultural services to help with cultural adjustment and homesickness
- supplying information and support with 'Overseas Student Health Cover' and health concerns
- providing advice about TAFE Queensland procedures
- assisting students in applying for student identification (ID) cards and internet access
- referrals to learning support to help with academic difficulties
- providing information about TAFE Queensland facilities
- supplying information on international student visa conditions such as:
 - » attendance
 - » academic performance
 - » contact details
 - » working while on an international student visa
 - » employment restrictions.

MENTAL HEALTH AND WELLBEING

Having a supportive environment makes a considerable difference. As well as getting assistance from our Student Support Services when you need it. Scan QR code for more information on mental health and wellbeing.

STUDENT HUBS

Students Hubs are a free, welcoming support service for international students in Queensland, providing access to free Wi-Fi, information, support, events and contacts to enhance their study experience. **STATEWIDE:** 1800 QSTUDY (1800 778 839). **GOLD COAST:** goldcoaststudenthub.com. **CAIRNS:** cairnsstudenthub.com.au.

Accommodation options

TAFE Queensland has a range of student accommodation providers throughout Queensland*. Student accommodation gives you a great opportunity to meet fellow students while still having your own space.

Many student accommodation providers have additional facilities and services such as common areas, social events, and after hours security.

Most providers offer:

- bedrooms with or without en-suite
- fully furnished options
- air-conditioning
- cabled internet in rooms, and wireless hotspots in lobby
- in-house Residential Coordinators who organise social, cultural and sporting activities.

You can also choose from a range of quality family Homestay and Student Sharehouse options from our approved providers.

*TAFE Queensland does not organise accommodation for students directly. We provide a detailed list of approved quality providers and services that can help you choose the right type of living arrangement to suit your needs and budget. Prices are weekly and will often reduce the longer you stay. A great way to meet new people, make friends and form study groups.

[FULL LIST OF ACCOMMODATION OPTIONS](#)

Your application

1 Select a course and campus

Visit our website tafeqld.edu.au/international to view our full range of courses. Firstly, you will need to select a course and study location.

2 Check the entry requirements

Check to see if you meet the Academic and English language requirements for your chosen course. We may be able to arrange an English pathway for you if you do not meet the requirements.

3 Complete your application

Depending on your nationality you may be able to apply directly online on our **How to Apply page**. Or you will need to use one of our approved TAFE Queensland **education agents (QR codes below)**. You will need as a minimum: a passport copy, academic records for senior school and any later study and, in most cases, a valid English test, financials, and a Genuine Student letter.

 Documents that are not in English must be translated and certified.

4 Accept your Letter of Offer

If your application is successful you will receive a Letter of Offer, which may be conditional upon you meeting certain requirements (such as English language proficiency). Your Letter of Offer will show a breakdown of fees and payment dates for the course you have chosen. It will also include important information about our refund policy and terms and conditions. If you are happy with your offer, you will need to sign your acceptance and return.

5 Arrange your first payment

Once you have met conditions and accepted your Offer you will need to arrange your first payment (or deposit) and any OSHC costs if TAFE Queensland is organising on your behalf. Your Letter of Offer provides details of how to make this payment, more information on payment options can be found [here](#). Once this has been received we will issue you with an electronic Confirmation of Enrolment (CoE).

6 Apply for your student visa

Once you have your CoE, you can apply for your student visa. TAFE Queensland does not arrange this for you. Either yourself or your education agent will need to prepare this application. Visit Homeaffairs.gov.au for [more information on student visa processing times](#).

[VIDEO GUIDE](#)

[REGISTERED AGENTS](#)

 International students who are under 18 years of age and are applying for a student visa are required by the Australian Department of Home Affairs to have adequate welfare arrangements in place.

English language requirements

To study a course at TAFE Queensland, international students are required to have a minimum level of English language skills.

The level of English language required is dependent on the study area and course level. You can find more detailed information specific to your course, on our website, under the important information section:

Certificate III, Certificate IV, Diploma*, and Advanced Diploma

International English Language Testing System (IELTS) Academic: Overall score of 6.0, with no individual band score below 5.5.

Associate Degree Level Courses

International English Language Testing System (IELTS) Academic: Overall score of 6.0, with a minimum of 6.0 in Writing and no other skill below 5.5.

Bachelor Level Courses*

International English Language Testing System (IELTS) Academic: Overall score of 6.5, with no individual score below 6.0.

Postgraduate Courses

International English Language Testing System (IELTS) Academic: Overall score of 6.5, with no individual score below 6.0.

**Please note: Some courses may have higher IELTS (Academic) requirements than the minimum stated above and may include specific sub-score requirements. Please refer to the relevant online course brochure for detailed English language entry requirements for your chosen course.*

Nursing Courses

To ensure success for our nursing courses, a higher IELTS score is required for entry. Both the Diploma of Nursing and Bachelor of Nursing require an IELTS 7.0 overall (Writing 6.5, all other skills no less than 7). Please [check our website](#) for more information.

English Courses

If you are unable to meet the minimal level of English, TAFE Queensland offers a range of English Language courses that you can study, to help you pathway into your future course.

Please contact us for more information and your course options, or discuss these options with your agent.

[ALL ENGLISH REQUIREMENTS](#)

[ENGLISH LANGUAGE COURSES](#)

Academic entry requirements

In addition to your English Language requirements, to study at TAFE Queensland you must also have the following academic equivalencies:

- Certificate III level courses require a Year 10 qualification or equivalent
- Certificate IV, Diploma and Advanced Diploma courses require a Year 12 qualification or equivalent.

You can view what your country school requirements are, by clicking on the QR code below. This list will show you the academic equivalency that you will need to send with your application.

You will also need to check the course information online, as some courses require additional information for the application, for example, some creative courses require a portfolio to be submitted as well.

Our highly experienced and passionate teaching team have years of industry experience and will give you the one-on-one guidance needed to prepare you for a career in fashion.

Diploma of Apparel, Fashion and Textiles - Design and product development MST50122 | 114604B

Step confidently into the world of fashion with this diploma level qualification. Designed for aspiring creatives ready to make their mark, this dynamic course equips you with the advanced technical skills needed to thrive in the fast-paced fashion industry. This course gives you a strong foundation in fashion design principles, trend forecasting, textiles selection, patternmaking, and garment production.

You'll also explore the commercial aspects of the industry, marketing and retail operations - ensuring you graduate with a well-rounded skill set that's highly sought after by employers.

Diploma of Apparel, Fashion and Textiles - Business MST50122 | 114604B

You will gain strong foundations in fashion design, business and styling, colour theory, textile knowledge and illustration, while developing your ability to forecast trends, create compelling visual merchandising displays, and build brand identities. The course also covers essential fashion business knowledge, including marketing, social media strategies, retail operations, and entrepreneurship—ensuring you graduate with a creative and commercially savvy skill set.

TAFE Queensland's fashion training centres provide the perfect environment to bring your ideas to life. With access to design studios, computer labs, digital tools, and industry-experienced mentors, you'll be supported to develop your own unique design voice and professional portfolio.

Visual arts and design

Diploma of Graphic Design CUA50720 | 105823K

In this course you will gain a diverse range of skills in technical and theoretical design principles and their application in everyday design. Expand on your creative talents through practical exercises in web design, typography, branding, packaging, digital and online design, illustration and portfolio design, all while working in a collaborative, studio environment.

Diploma of Photography and Digital Imaging CUA50920 | 107531F

Get the skills you need to work as a digital photographer across a diverse range of disciplines including portrait, wedding, commercial, documentary, editorial, landscape, real estate, event, sports or fashion photography. This course will equip you with professional, specialised skills to carry out photography and imaging services. Learn about emerging trends and technologies and capture knowledge in lighting, image manipulation and digital art.

Diploma of Visual Arts CUA51120 | 110425D

This course enables you to specialise in core areas of visual culture and professional practice with electives in painting, printmaking, drawing, sculpture, ceramics and digital media technology, combining specialised technical, creative and conceptual skills within the creative arts sector.

Certificate IV in Residential Drafting CPP40121 | 106738K

In this course you will learn specialist skills including the supervised production of drawings and documentation for Class 1 and 10 building designs using CAD software. You will also learn how to relate with others in the industry, how to choose construction materials and advise on appropriate building methods as well as learn how to ensure building designs comply with legislation and codes.

Certificate IV in Residential Drafting / Diploma of Building Design CPP40121 / CPP50921 | 106738K / 108107C

At the start you will learn specialised skills including how to produce drawings and use software, including supervised production of drawings and documentation for Class 1 and 10 building designs using CAD software. Then you will learn specialist skills in building design for residential and small-scale commercial projects.

You will learn to understand client needs to develop building design concepts and create sustainable design solutions. Utilising a suite of software programs for computer-aided drafting (CAD) and presentation, you will produce and present drawings and models.

Diploma of Interior Design MSF50222 | 111980B

You will explore colour theory and colour psychology, implement design elements and principles, propose lighting and create 2D and 3D design solutions using the latest technology in drafting and digital presentation. Product knowledge with reference to furniture, fixtures and decorative elements will be gained to ensure that every design outcome meets the functional and aesthetic project requirements.

Ebba Kempe. Sweden

Screen and Media

“ The equipment here at Coomera campus is way better than I thought and expected. They have everything we need to achieve big things here.

Child care

Certificate III in Early Childhood Education and Care CHC30121 | 109391H

Get a head start on your career in early childhood education and care with this entry-level course. This qualification is the minimum requirement for early childhood settings in Australia and will set you up with the foundation skills to get ahead. This course covers a number of core skills, including how to plan, implement and evaluate educational early childhood programs, support healthy meal times for children and foster individual development. You will also learn how to work within legal and industry requirements.

Certificate III in Early Childhood Education and Care / Diploma of Early Childhood Education and Care

CHC30121 / CHC50121 | 109391H / 109290B

In this dual qualification, you will learn core skills then you will learn the skills and practical knowledge to design and implement early childhood programs, by understanding the emotional, physical, cognitive and social needs of young children. You will be equipped with the skills you need to plan, implement and evaluate programs in line with approved learning frameworks and regulatory requirements.

Community services

Certificate III in Individual Support (Ageing) CHC33021 | 112854M

You will learn how to support independence and wellbeing, gain a variety of technical skills, and develop a range of transferable skills from communication to teamwork. This specialised course will give you the skills to provide home and community support services to facilitate the empowerment of older people, people with a disability, and people living with dementia.

Certificate III in Individual Support (Ageing and Disability) CHC33021 | 112854M

This specialised course will give you the skills to facilitate the empowerment of older people, people with a disability, and people living with dementia.

Certificate III in Individual Support (Disability) CHC33021 | 112854M

This specialised course will give you the skills to facilitate the empowerment of people with disabilities, and support community participation and social inclusion.

Community services

Diploma of Community Services CHC52021 | 113763F

Take the next step in your career in the community services sector with this advanced qualification.

This course will give you the high-level skills needed for a role with a community organisation. This course gives you high-level communication skills, and the ability to develop strategies to work with at-risk groups within the community. You will also gain valuable research skills and be taught how to work within legal and ethical frameworks.

Diploma of Mental Health CHC53315 | 096796J

Upgrade your career in the community services or health industry with this advanced-level course that will qualify you to work in mental health in a broad range of settings.

Specialise in mental health with this advanced-level qualification. This course will give you the specialised skills and knowledge needed to work with people with complex needs in both community services and healthcare settings.

This course will equip you to work with a diverse range of clients, run early intervention and health promotion programs, and research and apply evidence to your practice. You will also develop the skills required to advocate on behalf of people with complex coexisting mental health, drug, and alcohol issues.

English language courses

General English 0101409

From beginner to upper intermediate level, you will develop the English language and communicative skills needed for social and work situations and daily life activities. Learn basic comprehension, reading and writing skills through to more complex elements such as syntax and grammar.

English for Academic Purposes 0101406

In this advanced English language course you'll progress your vocabulary, grammar, reading, writing, speaking, pronunciation and listening skills in an academic context. As well as language skills, you'll also develop the terminology, study skills, and critical thinking.

IELTS Preparation 0101408

In this intensive English language course you'll discover how to best approach each section of the IELTS exam. You'll further develop your skills in the four key skills of language learning: listening, speaking, reading and writing.

Cambridge Preparation FCE and CAE 0101407

In this intensive English language course you'll discover how to best approach the FCE or CAE exam from Cambridge English. You'll develop the listening, speaking, reading and writing skills you need to succeed in an examination environment. You'll get valuable experience completing regular practice tests and develop lifelong learning and study skills that will help you in your future studies.

School alternatives for adult learners

Certificate III in School Based Education Support CHC30221 | 109289F

This course covers core skills such as assisting in the implementation of planned learning experiences, supporting the numeracy, literacy and communication skills of students, supporting students at risk, and working with diverse communities.

Certificate IV in School Based Education Support CHC40221 | 109307J

This course gives you the skills needed to support students in literacy and numeracy, the specific learning needs of individual students, and to work with students with a disability.

Certificate IV in Adult Tertiary Preparation 11240NAT | 115140K

This course is recognised by Queensland universities as a high-quality academic pathway and is facilitated by industry recognised, expert teaching staff. You will develop a broad range of skills relevant to tertiary education including advanced literacy, numeracy and digital literacy skills, time management, problem solving, mathematics, research and assignment writing skills, exam strategies and seminar presentation skills. Take your pick of the many electives in biology, chemistry, computing, mathematics, legal or physics.

Tracy Hang. Vietnam

English student - IELTS Preparation

Teachers are very patient. English is my second language, so it's really nice that they keep explaining things to us.

Animal services

Certificate III in Animal Care Services ACM30122 | 110617G

Start your career working with animals with this entry-level course. This qualification will give you the skills you need to work as an animal attendant or trainer. It is also the perfect foundation course for people looking to move into specialised streams in the field.

This course will give you broad skills in basic care and the capture, handling and transportation of companion animals, as well as specialised skills in either behavioural sciences or veterinary nursing.

Certificate III in Animal Care Services / Certificate IV in Veterinary Nursing ACM30122 / ACM40418 | 110617G / 0101451

You'll start by developing fundamental skills in animal care including anatomy and physiology, hygiene techniques, animal identification, animal nutrition, and client communication. You'll also learn how to handle animals correctly, maintain and monitor animal health, and assist in providing treatments for animals.

Then move on to your veterinary nursing studies where you'll learn how to support hospitalised animals through their medical procedures, prepare animals for surgery, assist in surgical nursing procedures, perform clinical pathology procedures, prepare equipment and animals for x-rays, carry out veterinary dental nursing procedures and monitor patients when under anaesthesia.

Agriculture and horticulture

Certificate III in Horticulture AHC30722 | 114313B

Further advance or enhance your career options in horticulture with this course that will qualify you to work in nurseries and parks and gardens.

Get a head start on your career in horticulture with this qualification. You will gain horticulture skills in plant identification and plant care, landscape management, propagating, pruning and fertilising to maintain gardens and nurseries.

This course will also give you a broad range of knowledge in improving soil conditions, implementing plant nutrition programs, operating machinery and equipment, and maintaining nursery plants. Our highly-experienced staff are still strongly embedded in the industry and will give you the one-on-one guidance you need to succeed.

Agriculture and horticulture

Certificate II in Horticulture / Certificate III in Horticulture AHC20422 / AHC30722 | 114311D / 114313B

Learn about Australia's unique flora with this entry-level dual qualification and become qualified to work in our country's many parks and gardens.

This trade-level qualification will give you the horticulture skills required to maintain gardens and nurseries such as plant identification and care, landscape management, propagation, pruning, and fertilisation.

Certificate III in Rural Operations AHC32822 | 114312C

Start your career in rural operations with this entry-level course and develop practical skills needed to work across a variety of roles including senior operations farmhand. This course will give you the skills you need to operate a variety of equipment including tractors and quad bikes, perform a range of farm maintenance activities, care for animals and monitor weather conditions. You also have the option to specialise your skills in the beef cattle industry.

Certificate III in Rural Operations / Diploma of Agribusiness Management AHC32822 / AHC51422 | 114312C / 110771H

Get the Australian outback experience with this dual qualification that will see you working on farms or stations, or as an agribusiness manager. In this course you will learn how to identify plants and operate machinery, manage both livestock and crop production, market your products and services, and prepare and monitor budgets.

We will also teach you how to develop farm and business plans, create climate risk management strategies, and produce sustainable land strategies. Upon successful completion of this dual qualification you will have the skills and knowledge needed to become a farm, property or station manager.

You will also have a solid foundation to complete further study and advance your career in this field.

Diploma of Conservation and Ecosystem Management AHC51120 | 104852B

In this course you'll obtain knowledge and practical skills in the management of flora, the classification of plant life, and conducting biological surveys. You will also learn how to be an effective manager in the conservation and land management industry, and develop skills such as natural area restoration, developing management plans, and data collection and management.

Laura Hanning. Scotland

Animal Studies

“ Sometimes I surprise myself at how much I now know about animals, especially when I realise that I know more about Australian animals than some of my Australian friends.

Health and science

Certificate III in Dental Assisting HLT35021 | 108108B

Kick start your oral health care career with this entry-level course that will qualify you to work as a dental assistant. This qualification will provide you with the skills to assist with dental radiography, sterilise equipment, assist with oral healthcare procedures, and use office software. Our highly-experienced team of industry professionals will give you the support and one-on-one guidance you need to successfully transition into the health sector.

Diploma of Dental Technology HLT55118 | 099345A

This course will give you the specialised skills and knowledge to work as a dental technician in a diverse range of settings. This qualification gives you the skills to construct models and custom impression trays, build removable acrylic dentures and alloy frames, and make crown and bridge structures.

Diploma of Anaesthetic Technology and Practice HLT57921 | 111757J

Advance your career in healthcare with this higher-level qualification. The health sector is experiencing strong job growth and this course will give you the specialised skills you need to gain employment as an anaesthetic technician.

You will be able to confidently assist the anaesthetist in preparing the client for their anaesthetic, this will include checking and maintaining the anaesthetic machine, preparing anaesthetic medications, monitoring clinical measurements, assisting with airway management techniques and anticipating and responding to any anaesthetic emergency.

Certificate III in Health Services Assistance HLT33115 | 095191B

This course will give you the skills you need to comply with infection prevention and workplace health and safety (WHS), interpret and apply medical terminology, and recognise healthy body systems. You will also learn how to transport clients and carry out nursing assistant duties in a range of settings.

Certificate III in Laboratory Skills MSL30122 | 113987A

This course will give you the practical skills and knowledge to plan and conduct laboratory and field work, perform simple scientific calculations, present information, and record and store data.

You'll also develop effective interpersonal skills, learn how to follow work health and safety (WHS) policies and procedures, and comply with environmental regulations.

Health and science

Certificate IV in Laboratory Techniques MSL40122 | 112033D

Learn how to log samples, check sample documentation, prepare samples for testing, perform scientific calculations, interpret results, and maintain laboratory equipment. Choose from a number of specialisations including chemistry, biology, histology, microbiology and tissue culture.

Diploma in Laboratory Techniques MSL50122 | 112047J

Learn how to interpret information using current scientific data analysis approaches and record data in accordance with industry standard protocols. Gain experience in a range of practical areas and learn from industry current and highly qualified teachers on scientific equipment found in a real working laboratory.

Diploma of Nursing HLT54121 | 109308H

This course will give you the advanced skills to perform clinical assessments, contribute to nursing care of people with complex needs, administer and monitor medications and IV therapy, research and apply evidence to practice.

Diploma of Remedial Massage HLT52021 | 113882K

Gain the advanced skills to adapt remedial massage treatments to meet the unique needs of your clients, implement injury prevention strategies, pregnancy massage, lymphatic drainage, joint mobilisation, trigger point therapies and deep tissue massage.

Higher Education **Health and science**

- Bachelor of Dental Prosthetics HED004 | 089698C
- Bachelor of Nursing HED007 | 114595J

Sports and fitness

Certificate III in Fitness SIS30321 | 109306K

You will learn the basic knowledge needed to succeed in areas like fitness program instruction, provision of healthy eating information and instructing group exercise classes. You may also have a chance to specialise in areas like aqua or group exercise instructor.

Certificate III in Fitness / Certificate IV in Fitness SIS30321 / SIS40221 | 109306K / 112121D

You will learn how to instruct personal training programs, group personal training, and exercise for older clients. You will also get the hands-on skills and knowledge needed to operate your own small personal training business. You'll be equipped to seek employment as a personal trainer, exercise instructor or expand into your own personal training business.

Diploma of Sport SIS50321 | 107798A

In this course you'll cover coaching fundamentals including how to plan and deliver coaching programs for high-performing athletes. You'll also be introduced to the area of sports development and discover how to design, deliver and manage a range of community sport and recreation activities for the general public. Study locations also include: Football Queensland and Queensland Rugby Union.

Hair and beauty

Certificate III in Hairdressing SHB30416 | 095203C

Learn modern salon operations including how to colour and lighten hair, provide shampoo and basin services, and how to design and cut hair. All of this will take place in the classroom and professional salon environments.

Diploma of Beauty Therapy SHB50121 | 111236A

This course will give you the advanced skills in areas including body massage and treatments, facial treatments, make up design, waxing services, and more.

Hospitality and cookery

Certificate III in Hospitality (Food and Beverage) SIT30622 | 112775K

This course offers you the chance to discover the various exciting career pathways in hospitality — from front office receptionist in a five-star hotel, to a banquet attendant serving a function for 1,000 people, to preparing the latest on-trend cocktails. You will learn how to work effectively in the hospitality industry, customer service, discover how to coach others in job skills and boost your cultural awareness.

Certificate IV in Kitchen Management SIT40521 | 109683G

The Certificate IV in Kitchen Management provides the technical skills and advanced knowledge required to join a kitchen brigade or continue with further specialised study.

Certificate IV in Kitchen Management / Diploma of Hospitality Management SIT40521 / SIT50422 | 109683G / 112779F

You will gain hands-on culinary experience in the preparation of appetisers, salads, stocks, sauces, soups, seafood, meat, poultry, breads, pastries and cakes. Develop your supervisory skills and learn how to manage diversity in the workplace, implement sustainable practices, provide leadership, manage finances, and coordinate cooking operations.

You will also get the advanced skills needed to manage a hospitality establishment including rostering, budgeting, marketing, and people management. You will learn hands-on customer service skills in our training restaurants on campus.

Diploma of Hospitality Management SIT50422 | 112779F

This course covers managerial skills including rostering, budgeting, marketing, and people management. You will also learn customer service skills in our training restaurants, as well as how to operate a bar and prepare espresso coffee.

Certificate III in Patisserie SIT31021 | 109736K

The Certificate III in Patisserie provides you with the entry level skills required to join a kitchen brigade as a pastry chef or pâtissier. This course offers a broad range of kitchen operation skills while also focussing on growing your ability to skilfully produce cakes, desserts and petit fours.

Certificate IV in Patisserie SIT40721 | 118338E

Refine your patisserie skills and step into a rewarding career with this hands-on course designed for aspiring chef pâtissiers. You'll master the art of pastries, desserts, breads, chocolates, and sugar work, while gaining real-world experience in our fully equipped training kitchens.

Certificate III in Patisserie / Certificate IV in Baking SIT31021 / FBP40221 | 109736K / 107355F

Learn the technical skills required to produce cakes, desserts, petit fours and artisan breads as an advanced baker, pastry chef or bread baker in a commercial baking environment. Raise your baking skills by learning the technical, artisan and creative skills and knowledge required to produce advanced bakery and pastry products, and solve complex baking problems.

Certificate III in Patisserie / Diploma of Hospitality Management SIT31021 / SIT50422 | 109736K / 112779F

Gain broad and well-rounded training in food and beverage operations, event management, front office operations and supervision of staff. Learn the principles behind financial management, legal compliance, and sales and marketing as they relate to the hospitality sector. Pair these management skills with practical skills in classical and contemporary patisserie techniques including the production of gateaux, pastries, petit fours and desserts.

Events and travel

Certificate III in Travel SIT30222 | 110835H

This course will give you the knowledge to provide advice on domestic and international destinations, process travel-related documentation, prepare quotes, use reservation software, and show cultural and social sensitivities. You will have the skills to seek employment as an international corporate or online travel consultant, or a reservation sales agent for a tour operator.

Diploma of Travel and Tourism Management SIT50122 | 112776J

This course will give you the high-level communication and technical skills that you need to manage a travel or tourism business. This course will give you the skills you need to manage budgets, lead and manage people, plan e-marketing strategies, and sell tourism products and services.

Diploma of Event Management SIT50322 | 112778G

The course covers how to lead and manage people, coordinate marketing activities, creatively collaborate and manage financial budgets. Successful completion of this course will qualify you to work as a conference or venue coordinator, or an event or exhibition manager and provide you the foundation knowledge to pursue further studies in your field.

Automotive

Certificate III in Heavy Commercial Vehicle Mechanical Technology AUR31120 | 103604D

In this course you will apply your practical skills and gain underpinning knowledge of how to diagnose problems, repair and service a range of systems and components of heavy vehicles and equipment. You'll repair and service engines, transmissions, cooling, steering and suspension systems, electrical circuits and systems, hydraulic and air braking systems, and diesel fuel injection systems.

Certificate III in Light Vehicle Mechanical Technology / Certificate IV in Automotive Management

AUR30620 / AUR40116 | 103618J / 102971M

As well as developing the skills to manage a small automotive business, in this course you will discover how to service and repair the mechanical parts of motor vehicles including the engine, transmission (clutch, gear box and differential), and suspension systems (steering, brakes, wheels and tyres).

Certificate III in Light Vehicle Mechanical Technology / Certificate IV in Automotive Mechanical Diagnosis AUR30620 / AUR40216 | 103618J / 095395A

In this course you'll learn how to perform advanced diagnostic operations in the automotive retail, service, and repair environment. You'll also gain the skills to perform advanced analysis and modification tasks to enhance vehicle performance in the automotive retail, service, and repair industries.

Certificate III in Light Vehicle Mechanical Technology / Certificate IV in Automotive Mechanical Overhauling AUR30620 / AUR40820 | 103618J / 103581F

In this course you will learn how to perform advanced diagnostic operations in the automotive retail, service, and repair environment. Carry out diagnostic procedures to identify complex faults in light vehicle petrol and diesel engines, electronic spark ignition engine management systems, and braking systems.

Maritime

Certificate III in Marine Craft Construction MEM30719 | 119144G

This course provides the skills required to perform a range of marine craft construction tasks. You will learn about occupational health and safety, trade drawing and lofting, material science, composite, and timber construction. You will also study the repair and maintenance procedures associated with various construction methods.

Carpentry

Certificate III in Carpentry CPC30220 | 104863K

In this course, you'll learn how to construct, install, finish and repair structures and fixtures for residential, commercial and industrial developments. You will work with a range of tools, equipment and materials to construct frames for walls and ceilings, construct pitched and advanced roofs and eaves, and erect and dismantle formwork for footings and slabs on the ground.

Certificate III in Cabinet Making and Timber Technology MSF30322 | 114314A

You will gain skills in making and repairing fine timber products using solid timber, flat-panel or timber-based materials. You will learn processes from design through to production including producing manual and computer-aided drawings, using power tools and wood machines, and undertaking jobs within cost and time constraints.

Engineering

Advanced Diploma of Engineering Technology - Electrical UEE62122 | 112777H

In this course you will develop the expert skills needed to design and validate electrical equipment and systems. You will be able to work in areas including electrical design, project management, process control, variable speed drives, programmable logic controllers.

Diploma of Engineering - Technical MEM50222 | 112010M

You will advance your skills in mathematics, materials science, quality assurance, engineering drawing and computing, as well as management and maintenance strategies.

Diploma of Engineering – Technical / Advanced Diploma of Engineering MEM50222 / MEM60122 | 112010M / 112020J

In this dual qualification you will advance your skills in mathematics, quality assurance, engineering drawing and computing and management. And gain detailed drafting and design skills, and learn how to oversee the installation and maintenance of machinery. You will also develop your knowledge of engineering processes and principles, project management, quality systems, and team building.
